Submission No: 401

Jill Stauder-Amey

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

I would Love seeing some cool stuff at the port, i feel we are really fortunate to have such a view but there are so many ugly buildings in town blocking the view, thete are no real classy restaurants or shops or hotels where the view could be utilized and bo beautiful marina, seems like every time something cool may come, ppl shit it down

Lee-Anne Cecchini

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

I strongly support a high frequency bus trial. Lack of buses is a strong factor in not using the service.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

The zoo is such a lovely place to go with kids. The playground gets lots of use and the animals are great for learning. I would even support more of a petting zoo vibe maybe with more of the rare breed animals rather than "wild" animals.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Traffic management	No

What else?

please demolish centre city and make NP great by using this amazing piece of NP as an eat street area for cafes, restaurants , music . Like in Rotorua why waste the best view in NP on the ugliest sunblocking disaster ever that should never have been built there in the first place . Get someone to build a new mall as planned at the Ravensdown old site, get investors in, upgrade downtown NP into boutique stores and arts and crafts and close back down the main street, pull down the dangerous old carpark leave it to nature , NP is an amazing location and we need to invest in attracting more people who will then in turn help pay for the infrastructure we need . Create a better city and design a world class town.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Definitely important to replace the facilities in order to continue to be able to host domestic games here. This draws in crowds, therefore revenue and is also an important continue the aspiration of young cricketers to see their heroes in action in their own backyards.

Martin Johns

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Just stop making changes to the roads - every single change you make just wastes money as they increase congestion and make the roads more dangerous. Just look at Huatoki St in Vogeltown. OR any of the countless speedbumps that cause congestion and pollution, massive damage to cars and achieve nothing.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

IF you want to hekp climate change, just stop doing any 'improvement' changes on the roads. The amount of pollution your road layout chagnes whether directly with stop starting traffic or indirectly such as the extra damage to cars, would offset any money you would chuck ath this anyway

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

What's wrong with that we already have?

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

You have to keep the zoo. It is a central point for everyone who lives within 100km

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 -Delay the required work and accept the risks of non compliance and building closure.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	Yes

Paul Woodgate

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Ratepayer burden must be top of mind ,here and elsewhere.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

In this economic climate, and given the cost blowouts re major projects, another stadium would be just about the last build on the list --UNLESS that build was deferred to a later time in the LTP. That option, interestingly, was not offered.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

The zoo is a gem, in a world where everything costs, and is popular with young and not-so-young families. A nominal entry fee would help, but in the longer term I'd prefer option two.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Option one, but again--- misgivings, as finished build highly unlikely to come in at \$16.3 million. If council bites off more than it can chew, then another fiscal disaster, and ratepayers in the firing line.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	No

What else?

Please--Ratepayer Communities are under considerable stress. As I see it, Council's priority in all its deliberations must be its people, its wage-payers. Neil Holdom has said as much recently. Most folks have already undergone a substantial rates hike. I realise while council has a difficult job to do at times, nevertheless councillors must work in concert--and put aside their own wants, put on their business hats--and let's try to come through the next eighteen months in good shape

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 4 - Accelerate the programme even further with an additional \$300,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Mary-Lee Joyce

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

There needs to be cost cutting in order to afford these big infrastructure projects, you cannot keep increasing rates indefinitely as people cannot afford it

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

We need to invest more as the climate is rapidly changing

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Will this be used, is it necessary, will it generate an income, if not, don't do it

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Perhaps charging a gold coin entry could help offset some of the cost

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

Will it be used, I never see anyone using the cricket ground

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	No

What else?

The cost of living has skyrocketed, this long-term plan should look at the most cost effective ways to make changes, take a pause on anything that isn't completely necessary and look at ways investments could be made to save for the future

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

Please continue with coastal walkway to Waitara. Something needs to be done along Tiromoana crescent where there is no footpath, just a neglected frontage above beach below. The continuation I believe is planned for there. Could this be done before winter. Walkers like myself at least would be safe until Wills Road, where there still is a stretch where you walk on road to footpath. Not good enough

Kathleen Kohlis

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

Nicky Turnbull

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Ensure all modes of transport are included in maintenance programme (walkways, cycle paths etc)

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Sustainability has to include ensuring NP stays as a livable city into the future, and public transport/alternate transport modes both contribute to CO2 reduction and make the city more livable

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 3 - Put increasing amounts of \$500,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

Operating a zoo is a long way outside of core business, and zoos that provide suitable enclosures, care, enrichment and contribute to species survival need much more space and money than can be provided. Could consider scaling back to farmyard animals only.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

As a fellow zoo industry member, it is imperative to species protection that we have spaces available in multiple facilities in order to run breeding and advocacy programmes. The effect of closing this facility would cause a lack of genetic diversity between the species in NZ institutions.

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	Yes

What else?

Brooklands zoo and Pukekura park are very important parts of New Plymouth and are key to keeping tourism going in the region as well as attracting young professional families to live here

Courtney Saunders

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

The feedback is set up, so you get answers you want. None of these options are what I want. Not starting to build better facilities for 4 or 6 years is unacceptable. We have kids who miss out on playing basketball right now because of lack of facilities which is unacceptable. The multi-sport hup will cost way more than suggested, the racecourse doesn't want it there and the roading infrastructure around it won't be up to dealing with the number of people going to the HUB. First priority should be building additional basketball courts, and this should have started yesterday, just add 4 or 6 courts to the existing TSB stadium and get on with it, then look at other options around netball and hockey focused on upgrading and improving current facilities. Another option would be to work with schools as they upgrade their facility and co fund then to make them bigger and accessible for the community. For example, FDMC is building a new basketball stadium, why not help them and fund a larger facility, sharing costs and getting more facilities in place ASAP, the same model could be used for other schools to get more basketball courts in NP ASAP.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

Cricket should be moved to Yarrow's stadium; this means more events at Yarrows all year round and means we don't need to upgrade the facilities for cricket at pukekura park.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

Stop wasting money on sustainability and Enviromental stuff and focus on infrastructure and sports facilities first and foremost more basketball courts. These should be started right now and built as soon as possible. Kids that want to play should not miss out due to lack of facilities as is the case right now.

Jeanine Fowler

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

If you mean roading, yes. Make the main rd thru np so it flows without needing to do 2x 90° corners just to get west of town. You need an extra bridge and road around the back of np from smart rd to say burgess park/carrington rd and back down again to port and western side of np. As you only have 1 bridge over whaiwakaiho, if disaster strikes eg mt blows up, would you get out, do you drive towards it to get to a different route? Have a think.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Incase of unexpected damage, 1st point is locals will start cleaning. Do not impose bureaucratic h&s stuff when most ppl can handle a shovel, chainsaw and get a start. You spend far too much on the discussion of 'how are we going to do this with a council employee' then getting on with the job, most of which a local contractor has done all his life and could do in 5 days when you take 5 days to deliberate 1st before you spring into action

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

We r a pimple on the worlds bum. Bigger countries need to do way more than 5.2 million ppl. Nice to have but no need to go over the top

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

As for a zoo. It can be more a petting zoo for little kids. No need for exotic animals. Most kids dont even get near a rabbit or a mini cow. Here is a thought. Mini donkey, cows(my daughter in law has mini belties her kids sit on) patting rabbits, rescue ponies. Kids would love it.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

Think with common sense. Your bureaucracy is out of control. The time frames are ludicrous and you are stifling businesses to progress eg, Subdivision consents take forever. You have too many layers working too slow. Geotech ppl dont show up, leaving machinery n manpower standing idle waiting for them. The on going costs are phenomenal ti joe blogg average. Streamline. If we ran our business like that we would be broke 10x over. Our rates just doubled to 6k, with absolutely nothing to show for it. Yet we pay for public transport? Come on! You need to think basic! Do the basics well and the nice to haves will come.

Not able to make an informed decision on this at this stage

Tūparikino Active Community Hub

Which option do you support for The Hub?

Comments

Not able to make an informed decision on this at this stage

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

The zoo is a huge asset to New Plymouth and something we should be proud of. I know from personal experience the joy that families especially children get from this facility. Maybe there needs to be a small \$2 entry fee added to assist in the costs of upgrades. It won't pay for it all but is a small contribution to help ease the burden.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

This is a building with a history. It would be a shame to lose it. I've chosen Option 2 but I feel as well as repairing, it is an opportunity to make the inside of the building fit for top-level domestic cricket at the same time.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services Yes

Housing for the elderly

Traffic management No

What else?

I'm proud to be a resident of New Plymouth and love sharing everything we have to offer to visiting friends and family. We need to continue to maintain our image and beautiful city and attractions.

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Find another way to budget better, to service what needs to be done. We pay alot in rates already, so advice budget better.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

\$200,000 per year for a disaster if that isnt enough then how much is, honestly thats half my mortgage. and whens the last time the fund was used for a disaster here? should be ticking over into hundreds of thousands by now.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

We cannot fix nor control the climate, the damage is already done, and anyone who thinks they can fix it or control it is a fool.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Future projects??, haven't even finished the last projects no-one asked for...

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Stay in the budget, it can be done and make sure ALL public can use it, kids included and not just for racket sports.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	Yes

What else?

Listen to the community, the ones who say no actually read what they have to say. As a rates payer, This is our 4th year in our home and its so dam expensive! irs gone up far to much to find these pet projects that dont get off the ground and then money just disappears BUDGET better, get a budget advisor on board. Heaps of people own homes and I can imagine how much they pay in the fancy areas. Stop wasting money.

Can't see the point, savings never keep up with inflation

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	No
Traffic management	No

What else?

Obviously cuts have to be made in some areas, ratepayers won't be able to sustain big rate rises with costs growing everywhere. I think address the basics first and get them up to standard and budget to keep them that way. Putting enough aside each year to do that. Water, sewage and roading have be the priority, being the original reason councils exist. But obviously cuts will need to be made in non essential area to fund spending in those areas.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Whole cricket ground and pavilion hardly used. Waste of money spent large amounts of money on practice wicket hardly used.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Kelly Gordon-stables

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

This is a valuable resource for the region

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Option 2 is very important and needs upgrading

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Protection of our local environment is paramount

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Yes if we wish to attract more people to our region

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

This would be realistic to act as a drawcord for visitors

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Safety of public is paramount so option 2 makes a lot of sense

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

This would be the cheapest option

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

If we want our region to strive to be its best we need to consider options mentioned above to attract more people and show them what our beautiful province has to offer

Gordon Burnside

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Sort out your contractors, they are robbing us blind and we're getting little value for money. The Downer setup is not working, nor is having so few providers with main contractors skimming and subbing out the work. This makes for a double level of management costs. Combine that with ridiculous Traffic management rules and we're spending more on process than actual works. That's why our assets are declining.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Weather events are not occurring more frequently. If maintenance was up to where it should be existing systems in good working order could cope with all weather events. Previous councils did great work protecting the city, just make sure its maintained.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

The amounts suggested are peanuts and most, if not all, will go in staff costs for lots of meetings and no decisions. The climate will look after itself. The gradual climatic changes felt in our Rohe over the past 60 years at least have been 100% beneficial and turned it from a cold, bleak, foggy hole into the beautiful place and benign climate we enjoy today. Don't fuss over nothing.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Leave District improvements of this nature to private enterprise. Council processes and attitudes achieve very very little for the dollars invested. Just make sure the default attitude and position of council is encouraging and supportive of such initiatives. Look at the Holden museum as an example, not one dollar of public money and it thrives.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

This funding was "sneaked" in through the back door with no public discussion that I'm aware of. It smacks of personal preferences in the same way as the now unwanted cricket practice facilities were a pet project, now largely unused. Sports need facilities, provide the space/land and encouragement and let them raise their own money for their dream projects. Its how most in the city were done and people have many more tools now to fundraise, they just need the motivation. Council is not helping in the current mindset.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

The Zoo and playground has been and still is a fabulous asset for generations of families over many decades. It should move along with the times at a steady pace as it always has, a delight and genuine jewel in the District.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 -Delay the required work and accept the risks of non compliance and building closure.

Comments

Give cricket the assurance that they will be permitted to rebuild the pavilion in the way they need it in their preferred and more suitable site. Encourage them to set about raising the funds required from their fan base . NZ Cricket has a bad habit of changing the goalposts with no notice so what is planned today (or yesterday as in the grounds themselves) will/may not comply tomorrow. As long as local authorities continue to pay for those changes they'll continue to do exactly that. Their sport, they pay. Historically if council were to be involved, council would charge according to cost and cricket wouldn't be able to pay the ground fees without massive subsidy anyway. Think of the Bowl and the costs to use it, astronomical and prohibitive without subsidy and the venue pays the price in reduced usage.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	Yes

What else?

Wrest back control of Lake Mangamahoe water usage would be a huge step forward in the future proofing of our water supply. The treatment facility is more than adequate if we were the only entity drawing from it. Former city fathers planned it that way with great foresight, we lost the plot somewhere.

Catherine Moore

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

The option of a multipurpose sports hub is extremely important!

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

This zoo is an amazing asset to New Plymouth! We are so lucky to have a safe, educational, fun, inclusive, family and free space to enjoy with our little people! It's an important privilege for us to hand on to future generations.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

Is it somewhere in the next 10 year plan or 100 year plan to fix the cock up made by the council at the Huatoki and Carrington Street intersection. As usual the improvements didn't materialise and now we are left with an intersection which is actually worse. Local residents have been suffering this stupidity for years now and even if it could be returned back to how it was would be an immense improvement.

Comments

Zoo are a thing of the past. Get rid of it.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Pukekura Park is a multi use venue that is being compromised. It is a no brainer to build a new pavilion as a high priority for NPDC.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

For goodness sake focus on the core areas of business for council. That is infrastructure. Council should not be in the business of providing transport etc but instead focus on providing the infrastructure to enable private companies to provide the services. This also applies to reducing the amount of red tape that council has introduced to support their funding that in turn reduces efficiency.

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

We need to spend money in improving the infrastructure which is the core of daily living. Having said that, it is unfair to put this on the rates as the use of the road, transport is not relevant to the size of the property nor, the number of people living in each house. The fund should be coming from road tax, car tax etc....

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Focus on long term planning, there seems to be on-going "fixing and repairing" which perhaps benefits a few parties on this spending. Find a better quality, get it done right and foresee for worst case scenario, instead of correcting each time.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Comments

One of the ways to tackle climate change ties in with infrastructure. Look into the Scandinavian countries for guidance.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

We are a spread out district and getting around is absolutely key. Worth the investment as we grow and as we see more and more bottlenecks of congestion forming in the valley, the one way system and the inability for port and through-traffic to bypass the CBD.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

If clean alternatives can be found at similar costs then I think that's a great idea. But caution should be taken when looking at 2x, 4x or 10x our costs just to achieve a slightly greener solution. I like the idea of trailing a high frequency bus service, but it needs to be backed up with great comms and first-ride/regular-ride incentives.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Seems wise.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

I worry that this project overly emphasises basketball and other formal indoor sports. I would like to see an increased commitment to informal sport, play and rec use like a measured jogging crushed-limestone loop track around the perimeter (currently the city's top runners use the Kaimata Road 1k loop which is not particularly safe and the Inglewood track is simply too far away for most runners to use), potentially a sprinting 4-6 lane straight of 60-100m that can be used for athletics training (at the edge of the hockey turf), covered outdoor space for bootcamps, several calisthenics equipment like pull up bars and parallel bars (these are low-cost but make a tremendous impact for casual users).

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

The Zoo is a nice-to-have for families but I do wonder if the investment is just stretching council budgets without much financial return. For example, I don't know any families that have chosen to holiday in New Plymouth because of the zoo, unlike the attraction of FOL, sports trips and the walkway.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

It's on Central Districts Cricket to show the pavilion would pay for itself in economic impact to the city. Otherwise the cricket pitch is simply a prime patch of greenspace that is unusable for rate payers. Personally I'd prefer it to be a community pitch that can be used for lunchtime games of touch and football and has a grass athletics track. But if domestic cricket is bringing in at least 10s of millions to the region each year, then perhaps that could justify the expense. But ask the cricket governing bodies to present the business case first!

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

Firstly, I worry in the 10-Year Plan at the consistent use of the words "equitable" and "equity" and "equitable economy". These words literally mean "equal outcomes". Unless you have communist ambitions, the outcomes for individuals should not be the concern of council as these outcomes ultimately come down to individual choices. The concern for council should begin and be centred on enabling a community with "opportunities for all". This means we don't ignore those who are struggling or those who are marginalised (like the elderly and disabled) but we make sure the opportunities they encounter are legitimately comparable to the rest of our society.

Second, the coastal walkway to Waitara seems like a great idea, but what interest is there for it from Waitara residents? If the interest is overwhelming I would like to see these numbers communicated. Also, I would like to see the council consider an extension to the walkway southwest from Ngamotu Beach around the cliffs of Back Beach (potentially going to Omata but that could be stage 2). This is one of the most scenic spots in our region but has no formal walkway or cycle path. There is space on the seaward side of the road most of the way along Centennial Drive.

Third, the footbridge at the end of Ahu Ahu Road connecting to Weld Road and Timaru Road has been missing for two years now after the cyclone. I would like to see this footbridge prioritised along with a plan for a walkway around the foreshore at Lower Weld Road (or behind the landowner's property).

Finally, a direct connection between Omata/Oakura and Egmont Village (and with it, an alternative for heavy traffic to bypass the CBD when going to the port or heading to and from SH45) needs to be in the long term plan. CBD roading damage/costs, noise levels and congestion will only continue to rise if we don't think of an alternative. Get the traffic out of the city and you encourage more people to live centrally which further reduces infrastructure costs and roading. It's costly, but it's an investment that I think would pay for itself many times over in making the region more accessible and the CBD more vibrant.

Audrey Weir

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Veronique xx

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Comments

Priority for transport infrastructure should first be given to a functional, workable, proud public transport system which at present is shameful. All work carried out should be visibly stunning which costs no more than rubbish design. We are blessed with our natural environment and the built environment should be as amazing as the Len Lye building and the coastal walkway.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

It is my understanding that all electricity comes to the region through Stratford. That is unsettling. If our mountain gets angry and Stratford fails Taranaki is black. I would like to see a second source of electricity.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Under this heading I consider Predator-Free Taranaki belongs. It is a farce as we have cats (ie the worst predators) everywhere. Someone with balls has got to take the bull by the horns. Surely one chipped and "fixed" cat per property is fair to people and environment. And, as in some Australian cities they must stay on owner properties inside their home or in a catio. Cats and dogs should come under the same umbrella. Both are necessary human companions but with that come responsibilities to neighbours, neighbourhoods and wildlife.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 3 - Put increasing amounts of \$500,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$5m would be added.

Comments

I don't think Option 1 and 2 are enough.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

This little zoo is such a community treasure. Just walk by there on a Sunday and see how many families are picnicing and enjoying the animals. I believe it is a holistic social amenity and takes people away from technology and a chance to talk and interact. I'm also aware that many families choose to have birthday parties in nature there. Visitors to NP speak so highly of the zoo, the fact that the animals are happy and that it is free, especially in these times when so many families do not have a discretionary dollar.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Comments

Don't know much about this or cricket but all I can say is the layout of the audience seats is amazing, just beautiful.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services

Housing for the elderly Yes

Traffic management

What else?

I think we should have a responsibility to ensure the elderly are well-housed. Bed sits are not up to scratch and do not encourage family visits as who wants to welcome anyone into what passes as a "bedroom". The elderly have contributed and have a lot of wisdom to offer and I would like to see them as a taonga to be acknowledged with grace, as in some other countries. I don't mean luxury - just give them a bedroom.

Sean Dowling

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Comments

Option 4. Build the original plan.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	Yes

Paula Frank

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

The roads are absolutely shocking with an increased risk of accidents and car damage due to the state of the roads.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 4 - Accelerate the programme even further with an additional \$300,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Rates are high enough as it is if you take into consideration the current economic climate and mortgages.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

There are other important issues which are currently more important and need to be addressed.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

I have been going to the zoo since a child and now take my grandchildren there. It's such a wonderful place and is the only reason I visit the park. Please fix it. It would be an absolute shame to lose it.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services Yes

Housing for the elderly Yes

Traffic management Yes

What else?

Please keep Brooklands Zoo. It's an absolute delight for children from this province who may otherwise not have the access or transportation to learn and see these species. It's a wonder for children. Even I, as an adult love going there.

Andrea Bryan

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

My Rates are already unsustainable for me and family as we already have serious problems paying what they are now. No more, this is our money, not the councils. This council appears to forget this basic fact.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

But do not employ more dead wood to operate this section. It easily can be absorbed by the staff in place.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Enough is enough. Climate change is a rort run and manipulated by seriously big interests. Stop the con-job NOW!

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Another foolish mythical swann song. Every second place/town in NZ now is the life style capital , let it go. People already are stretching the stuff we have.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

We already have Rugby Park taking our tax paid money for a huge Professional Sport. It crazy that we evn pay for it as it will be a huge white elephant.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

It has had its time in the sun. Now its time for bigger places to run it. Kids today aint interested evn going to it for a visit.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 -Delay the required work and accept the risks of non compliance and building closure.

Comments

Cricket here in New Plymouth has had more than fair of the rate demand. Let it be funded by raising \$\$\$ by the interested members.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services Yes

Housing for the elderly Yes

Traffic management Yes

What else?

Hi Brooklyn zoo should not get closed down kids families enjoy looking at animals and enjoying the enclosures and kids love playing on the playground

Donald Betts

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

The roads are an important part of our infrastructure for either local inhabitants or industrial vehicles passing through.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Some individuals should be able to claim from EGC. If the individual is not insured, 'tough bickies' the rest of us have.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Slower increases as it is the ratepayer you are killing off.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

As long as the projects are infrastructure and not 'nice to haves'

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Keep this project on budget. IMPORTANT

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

This is a popular visit for children of all ages. Gradually improve but keep up with the everchanging compliances.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

This property has been left behind and needs to be upgraded to regain the sporting patrons who left because of sub standard facilities. Some facilities are the same as when I played cricket there in my 20's and I am now 85.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	No
Traffic management	Yes

What else?

My wish is for the Council to concentrate on the infrastructure of the city and involve the community to raise the funds for extras, especially in sport related projects. The cycling belladrome is a point of note. Also the walkway to Waitara will need better controlling. I know of many walkers who will not walk on it anymore because of speeding cyclists. My thoughts are that in 10 years or sooner there will be a race to Waitara and return for cyclists.

Emma Kahu

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Our roads are very bad in comparison to other regions in New Zealand. More accountability should be taken by the contractors completing the work, they are doing sub par work and having to repeat work only recently completed instead of moving onto other stretches of road in need of repair.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Murray Thompson

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Although I have opted for option 2 this is only because you fools have let the services run down with insufficient maintenance and allowing far too many contractors on the job site who are only interested in watching one person work.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

The existing programme is enough as it should not cost this amount anyway. Option 3 is out as I'm not interested to subsidise people to ride buses.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Any further and annual funds that the rate payers have earned should not be placed into the hands of you fools! The last time we had a reserve fund you decided to fund a len lied centre! We were also told that with the perpetual fund in 10 years rates would be self funding! Yeah right you fools and liars!

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

This is not core council responsibility for rate payers. Once again with a food and economical crisis you fools have put your hand up for the rate payers who are against this project, by majority, and said yes we will fund it. You incompetent fools!

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

I chose option 1 as it is far past the time that this should be user pays, so unless you fools are going to charge then shut it down. Why should someone living in near poverty provide for others to have a 1.6 million house????

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Unless the users of the facility come to the party with monetary help then it should only be for the community. We have been to friendly to all and everyone in NZ and now we are broke with the rate rises because we are suckers and make everything free to the outside world.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services Yes

Housing for the elderly Yes

Traffic management Yes

What else?

GET BACK TO CORE SERVICES ONLY YOU FOOLS AS THAT IS THE ONLY WAY TO BALANCE THE BOOKS. GET ALL THOSE WHO SAY THIS NEW ADDITION AND THAT NEW ADDITION WOULD BE LOVELY, LET THEM PAY FOR IT!!

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

The huge amount invested in this Perpetual Inv Fund does not seem to bring the benefits it should. Surely it should be used more wisely to invest in projects which will be of benefit to the greatest number of residents ie the stadium and sports centre. Massive amounts have been spent on Yarrow Stadium (hardly used) and now possibly the Bellringer Pavilion, also Brooklands Zoo. This spending can't be justified while other more important projects are delayed with escalating costs.
