## Proposed Private Plan Change 48 - Oakura Farm Park

In my naivety I thought all information tabled at the hearing was what the decision

For this proposal was going to be made on.

So why does the applicant want more time. He simply did not do his homework.

It simply Gives the Applicant time to 'Jig' this and 'jig' that. His jiggling Will look great for the Commissioners, but even if a part of this Proposal is granted

Would the Applicant carry them out. We know from the hearing the Applicant

Reneges on his duties.

I support the Kaitake community Boards reply to this.  
I support the New Plymouth District Councils recommendation to decline application.
