Big Call 3: Paying it forward

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 - Delay the required work and accept the risks of non compliance and building closure.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services Yes

Housing for the elderly No

Traffic management No

Submission No: 1202

Sarahphine Hoyle

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

We need better roads they're ruining our vehicles brought with hard earned money

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	Yes

Kelley Radonich

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Review the contractors NPDC use for roading and review the costs before spending more money. Go out to tender to all roading contractors

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

We need to use any funding for more important matters than a cricket pavillion or a zoo that we do not get anything back from. I love Brooklands zoo but think we need to spend our money wisely.

We need to look into all contractors NPDC use. There are many smaller companies in Taranaki that could do a lot of the maintenance and cleaning of reserves much cheaper but they never get a chance to provide a proposal for the work.

The roadworkers we use are a joke and obviously charge whatever they like and the rate payers pay. NPDC need to review all contractors we use before we spend any more money making our rates increase.

Many people are struggling at the moment.

Sorcha Wolnik

Organisation: Coastal Midwife

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Public transport increase, particularly from coastal areas like Okato/Oakura to NP

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Another option exists - fund a stadium extension to provide much-needed indoor sports facilities that double as a conference centre/concert venue. This provides return on investment. Don't build sports fields in the middle because no budget exists for major works needed to safely exit traffic across SH3. Plus sports fields should be located where they can expand on the edge of the city. Enhance the green space in the middle for people and ensure long term camping space continues for WOMAD.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Catherine Cheung

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Focus investment in better and safer public and active transport, rather than in roads

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

More frequent, reliable and well routed bus services are really important, as is extending services to rural towns and villages, and support for shared community EV fleets. Grants & loans for more energy efficient and water conservation homes, co-funding for community renewable energy & micro-grid systems, and community food waste collection and composting hubs.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 3 - Put increasing amounts of \$500,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$5m would be added.

Comments

Set clear criteria for spending from the Reserve, putting priorities on projects that foster community wellbeing & resilience and contribute to ecological restoration, rather than frivolous and energy/material intensive projects like indoor sports venues.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

This is an energy and material intensive, non-essential infrastructure that does not deserve such high investment, when there are many more infrastructure and services that would benefit more people and the environment than this.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Consider shifting the focus to education and rehabilitation of injured native wildlife, rather than exotic species.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

We do not need to cater for top level cricket or other sports or entertainments. We are in a climate emergency and extremely tight financial situation - focus on projects that contribute to climate, environment and community wellbeing and resilience instead.

Chris Herlihy

Organisation: Pride Taranaki

Wish to speak to the Council: Yes

What else?

Pride Taranaki would like to rename the "Boatshed Lawn" in Pukekura Park to be a more visible signal of the Rainbow Community in New Plymouth. There is currently has a memorial plaque and kowhai tree to acknowledge the first death of an HIV aids victim in NZ which occurred in New Plymouth on 1 April 1984.

Andrew Brock

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

No. Do the jobs properly the first time. The amount of roadworks that just stand around doing nothing is ridiculous. Assuming this doubling will increase my rates, I won't be happily paying more rates for more people to stand around doing nothing

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Put the money aside. But what happens to the money if it doesn't get used? Can this be an accumulating amount over the years until a maximum number??

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

I wish for the city of NP to retain this amazing asset. I take my Grandchildren there all the time as do many others. I have been there for Children's parties as it is a safe enclosed area for parents to relax with their families. NP doesn't have any other children's playground as safe as this. The animals appear to be happy and it gives children an appreciation and exposure to them. We are very fortunate to have the zoo in NP considering the size of our city. I have spoken with many people about the possibility of the zoo closing. Everyone is horrified. This is an asset we need to preserve.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Samuel Sutton

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Stop spending money where it isn't needed, doing silly projects that we don't need. We need to fix our basic infrastructure before we can spend money on the wants not the needs. We need future proof infrastructure such as decent roads with no potholes that has been laid properly. New Plymouth could be an awesome place but there needs to be better planning, better infrastructure and not wasting money. Things like a light rail from south Taranaki into the city for all the commuters (years away probably but as an example) it would get people off the roads which then would mean maintenance wouldn't be needed as often. Even possibly look at getting more items transported by truck back onto rail.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

It is important to have a recovery fund, however it is also important not to raise the cost of living in a living crisis that could take years to recover from.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Future projects are good, however they are more of a want especially in the current climate. If the money was going towards revamping our public transportation such as a light rail for the region then yes.. however I can see \$5million isn't enough. So no. I believe there are more important issues to work on first.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

We need more hockey turfs!! The current one is abysmal, and needs replacing. We have enough rugby fields so time to focus on other sports. 2x hockey turfs and a stadium that could be use for international events such as the TET one in Stratford, basketball courts, good tennis courts, and maybe a international soccer field. However no need for an indoor stadium that is only going to benefit a couple sports and probably be an ugly building to look at anyway.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Inclosing animals is kind of cruel, however I do see its importance for young children with their learning.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 -Delay the required work and accept the risks of non compliance and building closure.

Comments

None of the above. Demolish the old one and build a new one and the same spot. The park is an incredible place for cricket. And it has so much history!! One of the most important and historic places in New Plymouth.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services Yes

Housing for the elderly Yes

Traffic management Yes

What else?

Stop wasting money on wants that are expensive, unnecessary and not required!!

Richard Andrews

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

In the short term I feel that we can pull back on spending more on our transportation costs. Don't forget, this is a time of budget constraints for most people. We can relook at this next year, if the economy improves.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Although this is a "belt tightening" time, observing the effects of Cyclone Gabrielle last year made me think that we need be more prepared. I disagree with your "preferred option" 3 however. A 10% increase in rates is very, very tough for most people.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

I am getting the feeling that restraint doesn't appear to be on the Council management's agenda. I feel that actions on Climate Change can definitely be put on the back burner in this time of tough economic times for everyone. Until the economic climate is somewhat better.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Again I feel that while this idea (Option 2) has plenty of merit, it should be deferred until the economic climate has somewhat improved.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

While my initial reaction was to delay this project as well, I'm thinking that the benefits would be very good. I therefore agree with your preferred option 2.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Closure of Brooklands Zoo would be a big retrograde step, seeing how popular this is with families. I hereby agree with option 3.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

As much as I would like defer spending here, I don't see how we can, and I therefore agree with option 1

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	Yes

What else?

I am concerned that Council Management seems to have insufficient focus on reigning in increased costs at the moment, in spite of this being a period of austerity for many people in North Taranaki. A 10% rates increase will be very hard to swallow for many people, particularly those on fixed income.

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	No
Traffic management	Yes

Craig Connolly

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Maintaining existing should be the minimum with climate impact likely to raise costs and increases in infrastructure requirements. Also would like to see some forethought in planning for future growth and alternative transport including cycle pathways done well here, not just getting buy on today's volume.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Another option exists - fund a stadium extension to provide much-needed indoor sports facilities that double as a conference centre/concert venue. This provides return on investment. Don't build sports fields in the middle because no budget exists for major works needed to safely exit traffic across SH3. Plus sports fields should be located where they can easily expand on the edge of the city. The green space is awesome for WOMAD camping.

Council Controlled Organisations

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Public transport in New Plymouth is abysmal at best. Services finishing at 6:20 limit a whole lot of potential users as the common work day is less and less becoming the standard 9-5. The services to Bell Block and Waitara do need to be increased as a current commuter, 5/6 buses a day for a suburb less than 10 minutes from town on a good day (Bell Block) which is also rapidly increasing in population size once again is isolating a community that could utilise public transport and reduce carbon emissions by less people using personal vehicles and again, having the last bus depart New Plymouth at 5:30 is not conducive with the new work day. If the services were more accessible and useful to the every day person, people would use them more.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

On the proviso that use of the pavilion & sportsground is extended to more than just cricket (summer) related activity

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

One issue that isn't specifically mentioned in the Plan is the need to dramatically improve efficiency of decision making & action. It seems that issues such as filling a hole & then immediately digging it up again or spending significant sums on consultancy for plans that never eventuate, are a waste of community funding & could be minimised with improved management. I would like to see the Council take more of a lead in overseeing all activities across the district with the objective of minimising waste.

What else?

Is there any way NPDC can oversee the work being carried out on the roads in our region? These works need to be co-ordinated so that a journey from, for example, Urenui to the city, doesn't go through 3 separate sets of roadworks on SH3 on a single day. Why aren't these works notified, to enable commuters to cater for the increased travel time. And I am not referring to "emergency works", as you can see the markings on the road days or weeks in advance.

Jane Swann

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Ban the huge double loaded heavy vehicles

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Michael Miners

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Pretty sure the rates I have been paying in good faith were supposed to go toward looking after these assets? Where is the accountability? We are left with no options BUT to double the spend to catch up.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Question 2 and already you can see where this is going.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

You can't even manage the assets you, whoops - WE already own. Put a pin in the 'nice to haves' until you have regained a semblance of fiscal credibility.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

It'd be amazing. We can't afford it based on the way Council approach and manage cost, I have no confidence in your ability to deliver as prescribed.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

This is a distraction project carefully placed to draw emotive attention away from grittier matters. Like for example how NPDC headcount has doubled under your Governance Mayor Holdem!

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Option 5. Have the private sector do it properly for half the price. Given the dysfunctional relationship between yourselves and TRC which led to the single sport Rugby Park debacle-ratepayers with an interest in seeing visitors to our region are left with no choice.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

More CCO's?! How often (outside your own echo chamber) is the sentence 'that would be so much more efficient if the Council managed it' ever uttered?! WAKE UP! The rate payers whom you are supposed to serve/work for have had enough of the incompetence meted on them by public sector workers (formally servants). Learn to live within your means, look after what you have got, respect your ratepayers, reflect on your culture. There is nothing sustainable about the current direction and the lifestyle certainly isn't affordable either.

Comments

Change the roading contractor, downers have poor processes that result in roading failure in short term time frames. The evidence is all around us. Take state highway 3 between Inglewood and midhurst for example, all rubbish. The part right after Inglewood that taranaki civil done hasn't been touched in what? 3 years?

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Should also look at building a 2nd bridge and road north bound out of New Plymouth in case the existing one gets damaged for whatever reason

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Climate sustainability isn't fixed with money, nor does our tiny contribution benefit the global scale at all. We are not the us or china

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

We need to as a whole community be looking at what we want the future to look like, the waterfront where the coolstores are for example, that could be the most entertaining beautiful place in the country if set out right. Take Mount Maunganui for example, that place is perfect for cruise ships etc, would be an awesome location for a food street, and some small local shops. No room for international companies though. Also our garden and lawn maintenance in New Plymouth has turned pretty south as of late. Definitely think our roading is in a poor way as I've mentioned previously, the contractors processes are 3rd world, and quite frankly it's dangerous and not acceptable. Why should we pay anything to have them build crap roads.

John Simes

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

This needs to be delayed, Rates are already too high and the Council needs to find cuts just like the government. This is a want not a need at this stage and is less priority than other matters identified.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Being free is a real attraction for for visitors and helps set New Plymouth apart as a destination. Tourism is important and the Zoo with its location to Pukekura Park works well. Should not be underestimated how important it is to have a place to take young children that is free and usable for all families.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

I get the history of it but it does not make sense to spend all that money when Yallows is being re done. It is criminal that the Council did not include Cricket. Enlarge Yarrows to accomodation international Cricket field. One is summer other winter so share these facilities and then the hub does not need to and some money can but cut off the cost of the hub.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

Do not create more Council controlled organisations- That is never ever going to be cheaper or more cost effective for Ratepayers as one Council. Council needs to be accountable to Ratepayers and by creating more bureaucracy creates more costs and inefficiency- This will be a mistake and will push rates up. Contract models etc have been done before and never become cheaper or cost effective. Rates are too expensive now. Do not create additional cost for Ratepayers. That said sharing costs where appropriate with Stratford and South Taranaki Councils maybe prudent in some instances, only if it is cheaper for Ratepayers. Maybe Taranaki should have only one super council.??

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

So far this year we've had notices in our letterbox to say they a resealing the road. Three notices and nothing done. Disgusting

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 4 - Accelerate the programme even further with an additional \$300,000 each year.

Comments

Make more places accessible I use beaches in my power off-road wheel chair. The access points are too narrow and I have to get out and ask people to lift my chair over and then crawl to my chair to have fun and surf cast on the beaches.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	Yes

What else?

Foot paths need a considerable upgrade as people in wheelchairs scooters etc find it hard to maneuver over potholes from poor up keep maybe the councilors should try a day in a wheelchair and travel your own footpaths. Not in central New Plymouth but Vogeltown highlands frankleypark etc

Your Home, Your Say Consultation Document

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Spend money wisely. eg. Fix potholes properly and in a timely manner. Don't just fill with hot mix which doesn't last. Don't waste money on overkill. eg. At pedestrian crossings. No need for humps and concrete barriers. Just do the basics.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

When the Perpetual Investment Fund was set up we were told the returns from this investment would lead to low or no rates in future years. Instead we continue to see increases every year. The fund has been ring fenced and so should the release funds for rates relief only.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Planting trees will make no difference to climate change. Money should be put towards helping the worst polluters to change to a more environmental option.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

When the Perpetual Investment Fund was set up we were told it would lead to low or no rates in the future. Instead we continue to pay higher and higher rates each year. The Fund has been ring fenced and so should the release funds be ring fenced for rates relief only.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

The budget for this project is guaranteed to blow out by double or triple before it's finished. We can not afford this.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Look at what enclosures are going to be the most expensive to upgrade and look at getting rid of these animals and just keep the others.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

\$16.3million is too much to spend on one sport. If cricket went option one then they should find the money to pay for it.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

The council should always be looking for the most efficient way to deliver services. This should be done within the current council system. Setting up more organisations to do what should already be being done is a waste of ratepayers money. We don't want services contracted out to organisations which would be focused on profiting from ratepayers.

Submission No: 1284

David Bloor

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Comments

Only the two options provided and disappointing that we need to increase the 2021 LTP figure by \$160M just to maintain existing. Clearly the transport network directing heavy traffic through our main centre, past a number of schools and through populated residential communities is unsafe and simply unacceptable. Suggest immediate completion of the planning document to address the network issues- heavy transport route to and from port, additional access to Waiwhakaiho (bridge) and in conjunction with city Centre strategy document. Accept that dealing with Waka Kotahi, Iwi and other stakeholders will be challenging but this is a strategic plan and just planning to do the same old thing is not productive. Funding once cost can be accurately fixed would sensibly be covered through long term loan, the resultant difference covered through small rate increase along the lines of option #2. It is urgent that transportation routing and consequent assets are determined and changes implemented. Other work and including the Waitara walkway extension should be delayed accordingly.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

We are currently putting aside \$200K/pa that would otherwise be used to reduce rates. This reserve is simply a form of self insurance given the cost scale of recent storm related disasters (HB and Gisborne), the fund would need to run for many years to mitigate any storm risk. the risk of course is now and not necessarily in 10 years time. Should disaster strike then NPDC will resolve any issues, fund via loan and under local government rules recover cost of loan direct from rate payers. Do not see the need to create funds that could be redirected to other projects.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

The existing program according to the Consultation document was not implemented, awaiting government direction. Continued planting program is reportedly on target for 10% urban planting within 10 years so no need to extend that funding. Could agree an additional \$300K pa would benefit the intended program. While a high frequency bus service is critical for the regions' development, a trial is unlikely to provide any useful results. Until people can rely on a service (regularity/ timeliness) the usage will be spasmodic. Either commit to a regional service or not!

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

The PIF was established and thought "ring fenced" so that successive councils could not hijack the returns which must be used to reduce cost of rates for NP district residents. With little control over "projects" this could too easily just become a top up fund.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

This project is likely to provide for a much wider proportion of the community than other projects more catered to very select groups (Bellringer Pavillion, Brookland zoo, etc.) so must be supported. It does seem that final design and cost is yet to be established. This is disappointing as time and increasing cost will destroy this project. A firm commitment to final plan and secured fixed construction contracts against secured loan would provide a more useful platform for NPDC to commit. Meanwhile suggest maintain current budget but force action from stakeholders.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

This along with other council owned assets should be closed down unless there is proven cost benefit. More important to restructure our transport network and focus on our beautiful park and city centre developments.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

This asset is for a select group of the community and there is no guarantee the top cricket matches would be played at this venue. If an accurate cost benefit plan can be produced for a new structure then pays for itself within a reasonable time period then perhaps review.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	No
Traffic management	No

What else?

The 3 waters CCO is critical and urgent. Appreciate that the LTP supporting documents caution a risk of resources being duplicated. I had understood that this base infrastructure was core council business. Clearly that has not been the case as evidenced by the current state of catching up with subsequent urgent funding required. This CCO may prove a useful vehicle to finally provide a single entity for these services across the region. Unless housing stock can be purchased or built cheaply, then NPDC should not be in the business of housing. No reason that NPDC cannot support other entities serving the needs of elderly and those with housing needs. Traffic Management was raised as a CCO and this would be another area that NPDC resources should not be used. My experience in establishing a stand alone TM company providing in house and third party service proved to be financially marginal. Surely with NPDC negotiating skills a reasonable rate can be secured from a reputable company, releasing NPDC resources and avoiding the many issues associated with managing traffic for construction work on NZ roads.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

I believe the zoo serves the vast majority of NP and visitors at some stage throughout their life. We have all visited the zoo as children, some of us very regularly. We have taken visitors and friends there. We have taken our children and hopefully with funding our grandchildren and great grandchildren. I don't often wade into council policy, apart from voting but I feel very strongly that we are privileged in Taranaki to have the Brooklands Zoo as a fun, free outdoor activity that caters to many demographics.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Let's face it, no amount of spending is ever going to make the pitch larger. I have been to the 20/20 matches and often in summer spend an afternoon watching a test. There is usually Noone else there. I believe the money could be better spent on projects that assist the whole community not a select group. It would be great if our waterways didn't get contaminated with sewerage after heavy rain, making many rivers and coastal spots unsafe for pleasure activities in the water

Brigitte Hegner

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Examine alternatives for types of transport, eg smaller buses or vans travelling more frequently and more routes

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

Shane Smith

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Happy to spend the money so long as it's not on woke ideas like dedicated cycle lanes and in lane bus stops.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Time to focus on the councils core responsibilities rather than more projects that are bound to blow out!

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Never close this iconic asset to NP. I vote for option 2.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Cricket is boring, repair it and move on

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	No

What else?

Get the core council responsibilities right first before anymore wasteful spending on woke leftist ideas!

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Do the job properly the first time. So many road fixes are having to be done 2-4 times over and some still are bugged.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Another option exists - fund a stadium extension to provide much-needed indoor sports facilities that double as a conference centre/concert venue. This provides return on investment. Don't build sports fields in the middle because no budget exists for major works needed to safely exit traffic across SH3. Plus sports fields should be located where they can easily expand on the edge of the city. The green space is awesome for WOMAD camping.

Tūparikino Active Community Hub

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

this is important and should be a massive focus to ensure the people of Taranaki have access to a sports facility that can cater to multiple sports and user groups. Much better than upgrading a single use stadium (i.e. rugby stadium)

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

This is a fantastic facility and a real asset to New Plymouth. It is well used and loved. It needs to remain relevant and part of our city.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Spending 16.3m to host a handful of domestic games for one sport is crazy. Why do NZ cricket require higher standards, they're just putting pressure on councils to fund upgrades to their 'product'. The money is much better spent on the multi sports hub to benefit a wider section of New Plymouth.

Comments

I don't think this be enough with climate change forecasts. Add more in.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 4 - Accelerate the programme even further with an additional \$300,000 each year.

Comments

I believe that this is an absolute must do. I cannot believe you think that option 1 should even exist. The climate crisis is real, cyclone Gabrielle was a prime example of what faces us and yet you are already running late on making changes and are proposing to stall an adaptation plan even further presumably for cost saving purposes. Just remember that it will be on your hands if a cyclone Gabrielle comes down this side of the island and you did nothing about it. I would also like to see NPDC do more on reducing emissions, is the plan fully included in the budget and, if not, why not? Accelerate emissions reduction work and consider climate change in everything you do. You need to step up your game as it is clear that the new National-Act-NZ First Government will do nothing at best, so it really is on you to do the right thing for future generations.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Need more information on what you would use it for, particularly to ensure it would be used for environmental lifestyle improvements only

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Do it once, do it right. don't half arse it and then find out you need to redo it later on.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

See previous comment on the hub. Plus, this facility is so important for our children and a revamp would be amazing. Need to think through how to stop it being closed for every concert at the Bowl and for 3 weeks around WOMAD though please.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

Not a priority for a facility for a dying, boring sport.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	No

What else?

Investment in Bell Block is really needed. Massively growing community but facilities are all small. Need a destination playground, bigger library, high school, hockey turf, access to SH3 improvement, parks with forests rather than cows, walkways connections (Waihowaka walkway just ends, a few 100 metres and it would connect to Coastal Walkway and you own the land for it), decent bus service, a community group etc Overall, please also invest more into looking after our parks and green spaces. Pest and weed control, track maintenance etc

Steve Walter

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Plenty is being spent already. The problem is the low quality work that doesn't last. The structure of the roads is insufficient for the usage so it repeatedly breaks down under load and requires repair. Find a way of building roads that will last then there isn't a requirement for constant rebuilds. Concrete?

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Isn't this expected damage? It happens frequently right to be fairly predictable.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Where is all this money coming from? The preferred option is always to spend more. Don't waste money on buses. The level of service required for people to actually use buses as a first choice transport option is way beyond what you could hope to provide.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

John Coker

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 4 - Accelerate the programme even further with an additional \$300,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 3 - Put increasing amounts of \$500,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

It would be a loss to the city if Brooklyn Zoo closed. It's the main draw to pukekura park.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 -Delay the required work and accept the risks of non compliance and building closure.

Comments

Why does a cricket pavilion cost 16 million dollars? You could buy the most expensive house in New Plymouth 3 times for that.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

Conrad Murray

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

I like for the most part the infrastructure that's in place in terms of footpaths but there is some very small areas that are very poorly planned and make critical safety risks forcing pedestrians, cyclists and motorists in a very narrow lane at high speeds. A prime example of this would be the bridge where Huatoki street crosses Huatoki stream near Camden street. Which is a great route for pedestrians and cyclists to avoid the busier streets of the CBD but a Russian roulette game for all involved when two cars a cyclist and a pedestrian are sharing that bridge in the same moment.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Team Sport is important, but too fast investment in this area detracts from people getting into and respecting exercise in our natural environment as well.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

Your doing a great job! just need to keep an eye on the details in my opinion.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

The need for additional indoor playing courts in NP is well documented. Local codes such as Basketball and Volleyball cannot cope with the numbers wanting to play. New Plymouth lags well behind nearly every other city in NZ for indoor sports spaces, This project has been delayed for over 10 years and we need to focus on the health and well-being of our youth and adults through active sport and recreation. The number of occasions that the TSB Stadium is unavailable for local sport due to "Commercial bookings" really hampers our ability to facilitate leagues.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

The zoo was a great asset and has served its purpose. It was a nice to have but not in today's economic climate. It is too costly to operate for a small population.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

There will be limited national and international cricket matches in NP. The cost to replace the pavilion for one specific code is uneconomic and hence upgrading for local use is the best option.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

The NPDC needs to focus on the local matters for which they are responsible. Too much focus has been on providing funding to bring numerous events to NP. Roading, water and sewerage, health and well being are major priorities. Reducing NPDC staff also needs to be considered. There are too many employees.

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

My kids count over 40 cars waiting in line at intersections from Mangorei to Frankleigh Park. Congestion is a big concern for anyone who has to cross the city to get to work/school. Some intersections are plain unsafe and some work done to rectify that for example in Vogeltown has made it worse. We are depending on the common good of fellow road users to let us out at intersections when they have the right of way. Better planning needs to be done before work is carried out.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

New Plymouth experiences very little severe weather. In all my 30yrs here I haven't seen anything that compares to elsewhere in NZ when it comes to storm damage.

Big Call 2: Sustainability – Climate Action Framework

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Health and wellbeing is important to us as a family. My kids aren't too keen on outdoor sports during our cold wet winters so we would make good use of this facility especially for miniball. Kids miniball games are currently playing into the dark which for young kids I think isn't practical.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

It's hard to find somewhere outdoors in New Plymouth that is well fenced, has a nice natural grass area, a play ground for all ages, ice creams/drinks and plenty tables. If you closed it entirely it would be a massive loss to children and parents who need to get out of the house and into community spaces to socialise. My vote is to keep the fenced-in space for the kids but possibly pivot to an interactive farm-based petting zoo or similar that doesn't cost as much to maintain. Perfect place to also host kids events where parents can relax knowing their kids can explore without the risk of water nearby.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

I don't think NP has a huge demand for top level cricket compared to other sports like Rugby.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	Yes

What else?

People are struggling with the cost of living. We are a single parent household and in our day to day lives we care about the basics. Access to free clean drinking water from the tap is of most importance. Secondly having swimmable beaches and rivers in the summer without the risk of getting ill. Thirdly being able to move freely and safely around the city to school and work. We use the public library and visit Puke Ariki weekly. We also use the Aquatic Centre and Fitzroy pools regularly. We love the summer and winter festival of lights. We do not care for Americana, Womad or other big events.

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Jared McBride

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Increasing the amount you spend will just increase the amount of substandard jobs, spend the same but hold contractors accountable, if the job doesn't last get them back to fix it at their cost. That will hopefully stop the cheap tenders being put in, then the unnecessary rework costs, and put some pressure on the contractors to deliver a quality product

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Rates are rapidly becoming unaffordable as it is, any steps taken to keep them in check is necessary. Think back to when the Powerco shares were sold and we were all told that the sale would be the first step to becoming a rate free Provence, what happened to that pipe dream

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

as previously stated unaffordable rates need to be recognised, ratepayers shouldn't be seen as an endless cash reserve because we aren't !

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

The current roading infrastructure isn't in place for a multi sports hub, the congestion alone that would be added to the southern entrance to the city would be a nightmare, just look at the road block the howl of a protest caused coming into the city, now magnify that by multiple days and weekends during the year, stop focusing on vanity and nice to have's. We currently have adequate sporting facilities

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Unless there is a written commitment from NZ Cricket confirming that the replacement of the pavilion will result in continued use of the park for top level cricket for multiple years then just repair it, why spend and estimated \$16.3 mil (and we know that will blow out to \$20mil) if there is no commitment from NZC

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

Operate within your means, we rate payers have to, we can't just put our hands out and demand more money the council should be the same

Organisation: Ratepayer

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

An essential: a Need.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Defer extra spending until water and transport are on track and the "recession" along with interest rates have eased (defer: to take increasing rates cost pressure off lower and middle income ratepayer household).

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Defer until the "recession" along with interest rates have eased, to take the increasing rates cost pressure off lower and middle income ratepayer households.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Defer until the "recession" along with interest rates have eased, to take the increasing rates cost pressure off lower and middle income ratepayer households.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Defer until the "recession" along with interest rates have eased, to take the increasing rates cost pressure off lower and middle income ratepayer households.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Look at the user number data and profile of users, good value money for ratepayer money when you track wide age and visitor type: compared with say Cricket (no disrespect). Safe family, community and educational facility. Contributes to fundamental community wellbeing needs for a wide range of visitors/tourists, families and ages. Contributes and leads within the National Zoological framework.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

A Want not a Need The Cricket ground used to provide better value for ratepayer investment when used by a wide cross section of community e.g Athletics and other low impact events. I cannot support my rates going to the exclusive use of this area for Cricket when the Cricket user numbers, community profile of users and period of time in use is so small.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

Sustainable water services. Consideration of increasing storage as much as possible to make the most of high rainfall times to counteract the affect of times of drought or low rainfall. Consider Three Waters as it was intended rather than the paraiah it has begun eg. it was an initiative to help with the costs of improving of infrastructure due to the collective (bulk) buying power of water services all across the country and to increase public health standards of water no matter where you live when accessing public water supplies.

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Focus on maintenance of current assets rather than creating major changes. Too many of the roading, footpath, bicycle lane development are not currently necessary and contrary to what many New Plymouth ratepayers want.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

We seem to be constantly and increasingly living under the fear of what might happen and reality is future proofing can only go so far. Yes prudent to be prepared but this needs to be managed sensibly

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Does not need a separate programme. Should be built into all developments. Agree with enhancing bus service but build some bus shelters as a first step to support bus users.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Not a priority in the current economic climate. Let this grow from grass roots and community based ownership as it is presently.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Spend money to enhance present facilities.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

This is an important community asset and needs to be maintained at a good level.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Focus on local community use.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

Thank you for the opportunity to give feedback-appreciated. New Plymouth is a great city and credit to past and present. Careful consideration is required though regarding some what appear to be small but vocal minority initiatives e.g. some roading, bicycle lane and footpath changes as they are quite out of sync with current community needs. Maintain the core infrastructure and facilities at this time

George Shaw

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Not happy with the pot holes in our roads

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

You mean infrequent severe weather events!

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

I do see a lot of chem trails left by planes flying over the City. I think the first thing to do is to stop this form of pollution!

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

The PIF is to offset Rates!

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

These virtue signalling projects are nothing to do with Council activity. Stick to your basic role and do it well.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Great place for city children to have an appreciation of animals.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Got to learn to live within your budget

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

CCO's at arms length from the Council says to me the Council wants to give it's responsibilities to someone else, who will not be accountable to the public! I want to hold the Council to account!

Ari McGlone

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 4 - Accelerate the programme even further with an additional \$300,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 3 - Put increasing amounts of \$500,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Andrew Brooking

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

The cost of living is hard enough and the roads would not need the work they do if someone held the contractors that do it responsible for the poor workmanship.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	No

What else?

Cost of living is already hard enough for rate/tax payers look at options that have little impact on this.

John Gardner

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Comments

What transport assets? Can you name them if we have them

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

The hub should be discontinued completely

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Can you justify the cost. The council has a very bad record of underestimating costing of projects

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	Yes

What else?

Discontinue supporting the Len Lye center because the use is very poor and overrated

Tony Harvey

Wish to speak to the Council: Yes

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

No no no. Building a ring road and another bridge is ludicrous and backwards thinking. Do not build more roads. Toll gates into and out of the city for petrol and truck drivers. Remove the trucks and trailers travelling to the port by having them drop logs and containers at Inglewood or Hawera. Invest in the railway. Put another station where the old passenger one was. Get smaller electric buses and move people around on those into and out of the city. A rail station at Bellblock with a park and ride system will alleviate traffic and new regular peak time orbital bus system from a new station will move people around the city. We have a railway system that is so under utilised its not funny anymore. The railway is the way ahead.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 4 - Accelerate the programme even further with an additional \$300,000 each year.

Comments

I had PV solar panels and an electric hot water heat pump installed in 2014. Both have now paid for themselves. I like the idea of developing a climate change plan. Battery and Hydrogen technology is moving ahead so fast that I believe implementing it too early will not be cost effective, however simple things like solar systems and water catchment on houses should be made standard. The push should be away from gas water heaters to hot water electric heat pumps as standard on all houses built in the district.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 3 - Put increasing amounts of \$500,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$5m would be added.

Comments

Better to consult economists and people more knowledgeable than the average people around NP.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

The ridiculous amount as well as the whole project at Rugby park should be investigated by a parliamentary committee. It is nothing short of criminal that we have to pay for an inadequate facility in the wrong part of town. The whole project shows a lack of foresight.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

Looking at some zoo's around the world Brooklands has fallen behind so for sure update it and improve the visitors experience as well as the animals and birds facilities.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

The building does not suit the location. The ground is now too small for the modern day mens game. I propose moving Taranaki cricket to a different location on a ground that is more suitable and re-establishing it

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

The council needs to look ahead at the future technological changes and how we will move around the city. E bikes are becoming more popular and vehicle propulsion is changing dramatically fast. I would suggest that in the future all new housing should be built with water catchment from roofs and self contained tanks. All new apartment housing should be built with EV charging facilities and solar panels.

Martin Phillips

Organisation:

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Stop wasteful council spending targeting sporting clubs and other groups. Reduce council wages

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

It's a con climate control.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

However, with an already large rates increase which has hit many families hard, there needs to be a small gradual increase over years. People just can't afford it otherwise

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Buses from Inglewood please.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	No

What else?

Inglewood public pool - cover it completely and make the pool usable all year round. Such a great place for the people on our community to to and it's sad we have to travel at least 20 minutes to get to another pool in off seasons.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

It would be a real shame to lose our precious zoo. This zoo has been a place of happy memories for children and families for many years. It would be wonderful to see it being upgraded to its full potential, and would draw in visitors. Ideas include installing a beautiful cafe with softplay area for children. There are so many young tamariki in Taranaki and this would be welcomed with open arms. Thank you.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	No

What else?

Please consider upgrading Inglewood pool to an indoor pool. This would open the pool up for year round use and could be a place for swimming lessons for tamariki. This would be wonderful for Inglewood locals!

Keith Herbert

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

How about get back the money from Auckland and Christchurch that was given to them out of our roading budget over the past decade that should well and truly cover the cost, also train our road workers better as they can't fix a pothole

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Don't need anymore rates hikes, refer previous statement and get money back from other regions that taranaki helped out will cover all costs

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

To get international fixtures back to our region I'm all for a multi sports hub, in saying that yarrows should of been knocked down and money put into that should of gone into the hub

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

New pavilion and make the field large enough for international fixtures

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	No

What else?

Footpaths that are off the main drag need looking at much like the 1 outside my house and around the neighborhood ,asked council to sort it out for years seen many people trip and scooters flip

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Needed with climate change forecasts

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 4 - Accelerate the programme even further with an additional \$300,000 each year.

Comments

Option 5 - warp speed acceleration. Too much at stake. This should be biggest focus for next decade to get to net zero as soon as possible.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 3 - Put increasing amounts of \$500,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$5m would be added.

Comments

Put the emphasis on SUSTAINABLE with this fund.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

I thought hockey had the biggest needs? What about another hockey turf?

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

Make this the best provincial zoo in NZ

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

Not a priority compared to other areas. Good cost saving opportunity to take this out. Happy if cricket want to pay for it, and then Council could contribute a small amount

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	No

What else?

Council needs a te reo policy so that everything is in dual languages. Start following Te Tiriti in everything you do.

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

That council reps and staff are ongoing, fiscally competent and efficient and can pivot when central govt. changes statutes, edicts. When removing eg a polluting, private cars clogging, roads, there other options to help change habits, eg future town planning, offer options that are relevant to needs of clients/passengers.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Agree, there is a growth of data being recorded by insurance co., regions, districts, towns, communities both in NZ and international. That community disaster leaders are well informed and action plans continually reviewed

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Does this mean that the business meaning of 'growth' needs to be measured against our regions/city's ability to sustain that level of growth into the future? (should changing govts, do more regarding migration) ?

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 3 - Put increasing amounts of \$500,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$5m would be added.

Comments

Agree, as long it is not hijacked in the future from what it is intended to serve. (thinking back to assets, regionally owned like electricity companies, banks.)

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Very supportive. With a badly needed regional netball/basketball hockey all weather etc, increasingly sedentary employment, use of devices, what a great asset for our community. Even more event opportunities for the region and wider spinoffs such as accommodation, specialist sports/health personnel.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

Not a supporter of zoo's. Maybe collaborate with private enterprises elsewhere who have 'farmyard' animals. Specialist hubs, such as that at Inglewood, caring for our indigenous/native species, may develop 'viewing' enclosures similar to that at Ngongotaha and Otorohanga.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Agree, will mesh with Tuparikino. Hopefully will be very popular multi functional facility, with the Pukekura park upgrade.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

That transport options are fit for purpose, such as walking, cycling, scooters, mobility scooters, rail corridors lease, buses, appropriate pedestrian crossings etc, are considered in conjunction with the Taranaki regional council, when town planning and private vehicle use. Agree with ring roads for heavy haulage and a second Waiwhakaiho river crossing. Nga Mihi.

Michael Carr

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

This is an essential community need, it can't be delayed any longer! The overarching vision for Tūparikino Active Community Hub is still about a place of belonging for our community – where equitable access and wellbeing are prioritised, and where there are multiple opportunities to experience quality offerings of play, sport, recreational and cultural activity. How this is envisioned continues to be a motivating factor for this incredibly significant and transformational project. It is still a staged and phased approach, like this project has always proposed to be, it is just starting off with a much smaller first stage.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

There is undoubtedly a requirement for better community facilities in New Plymouth - a visit to Tauranga for AIMS games will confirm that New Plymouth is significantly behind other regions and as noted in the consultation document the area misses opportunities to host teams and events. That said, the proposed solutions whereby a compromise has had to be reached with the horse racing community for use of land at the race course site in New Plymouth is disgraceful. Council should be using funding in this version of the LTP to enable the exit of horse racing from the centre of New Plymouth to better enable a complete solution utilising that land and area. Being beholden to the minority from an industry of dubious community benefit advantages no-one. It would be preferable to abandon the race course location completely and better utilise newer technologies such as hybrid surfaces around existing sports fields and locations - Hickford Park for a multi-use stadium and additional cricket facilities alongside existing rugby/football pitches, development of hybrid turf solutions on NPBHS fields to enable a second New Plymouth hockey turf alongside the existing Webster Field site (including clubroom/meeting/cafe, spectator and changing facilities), development of fields and facilities in Waitara are all examples of a better spent of limited capital. Council allowing itself to be held hostage by the ridiculous demands of horse racing is farcical at best, and damaging to the community at it's worst. Do better.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Cristina Ireland

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Finish the job of fixing the water first then look at what needs doing urgently

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Ratepayers need relief from rates increases

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

There are more important issues to deal with first

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Consider crowd funding

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Introduce a gold coin donation at entry or crowdfund

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

We don't get international cricket games in np. More important issues to fix.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

Fix the most important infrastructure first, if there are funds available then look at the nice to haves. Rates have skyrocketed, we need relief from rates increases. The nice to haves can wait. That's how most people operate their lives.

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Invest now, if we don't we will end up worse off in the next 10 years. New Plymouth is growing and we have to accept that with this growth comes investment and change in the way we do things. Spending money is inevitable for the betterment of our community. We need to have good infrastructure in place to cope with this growth and expansion of NP.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

You have to give something back to the community. Not just a take take attitude. I'm sure you have your preferences, but the community will see it as a grab with zero benefit. I do agree that we need to look at not only the storm water but sewage overflow going into the ocean (still) on rainy days.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Plant fruit trees so the community have free fruit etc along side of planting other things.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 3 - Put increasing amounts of \$500,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

This zoo is such an asset to New Plymouth families. Please don't close it down.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

"The development of the Climate Adaptation Plan was delayed awaiting expected government legislation." I'm a bit concerned that this will come in and negate efforts at a local level.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

I'd also be happy with Option 1.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

When planning spending, please be mindful that there are a lot of struggling families and spending needs to be effective and efficient. Thanks for doing a great job for us!

Your Home, Your Say Consultation Document

Submission No: 1390

Jeffrey Fong

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Comments

Councillors should be lobbying first for central government financial assistance. Regardless of the sacrifice of a high degree of control, the financial implications of taking on debt locally or increasing rates may work for a while but public appetite will not allow it to continue long term. I personally don't mind increased rates but historically this has led to disruption at governance level. Unfortunately without central government loans, rates must go up to preserve the regions infrastructure, health and livability into the future.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Having seen the effects of cyclone Gabrielle, and flooding on the west coast, this is required for "climate change adaptation". The PIF should be seen as a kitty to take on investments in the region.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

It's a trial, we need to adapt to transport changes. We will never know if we don't do the trial.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 3 - Put increasing amounts of \$500,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$5m would be added.

Comments

Perhaps the use of the PIF could be redefined as a reserve to fund past underinvestments on which future rates are now being used. Rates and all income should of course fund future progress.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Sports is important to the people of new Plymouth but over investment at the expense of climate, water and transport should be controlled and budgeted.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

The zoo is an important 3rd space for families. It is nice that it is free and simple. An expansion would be great but focus on clearly serve the young community in an educational way would need to be further defined.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 -Delay the required work and accept the risks of non compliance and building closure.

Comments

Economic analysis on domestic cricket to be undertaken. 16million on the zoo, art gallery, future sustainability, sports hub all seem like more valuable causes at face value

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	Yes

What else?

Ring road. Our city centre is heavily compromised by heavy traffic heading to the port. It currently hasn't been a safety issue but disturbance to residential areas and the resulting heavy traffic routes through the town inhibits flow and easy access to the CBD.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

I was there Sunday, the place streaming with mum and dad's taking their children out to a free venue. It was magical seeing the delight of children with parents and grandparents. What an assist, improve the exhibits certainly, somethings things need to be accessible and affordable to everybody.

Second I had some spare time due and have explored the museum. It's brilliant credit to all those who have created the displays another gem. Well done.

Third.I also went len lye. Some people may like this but I am not a fan. The exterior is brilliant, breathtaking but the interior space is soulless. Although I met a lady who recommended the movies that's a plus. It must be difficult to please everyone,

God bless brian carmine

Eric Foreman

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Live by what we can afford

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Continue to build fund at 200k

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Continue with programme at 240k per year

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Live by what we have.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Use what we have.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

5.7 mil Way to much.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

16.3 mil. is it going to be gold plated for the future. in 10years it won't comply with the standards of the day. use what we have.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

Should only be a 2 year plan. As it is there is a new 10 year plan every year.....

Office Use Only: 1723

Submission No: 1397

Neil Hodges

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Rather than divert funds to "nice to have things" keep the funds available for essentials.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

How much is in this damage fund right now, or has this been diverted to nice to have things, or is this a new option.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Don't rush into solutions that are the favourites right now, because time will sort out the real best options. I refer to the all electric rubbish truck fiasco, where it can only do flat routes.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Keep the money in the perpetual fund.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

This whole plan is not well thought out. There is no parking available for supporters. It's duplicating facilities. Is it part of the essentials of a local body to provide sporting facilities, or should it be a regional thing.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

This is based on what standard? Can find standards for new enclosures but existing enclosures no. I think this is just another example of a council employee wanting a project in their name.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

The ground has been down graded from National status already.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?
