Submission No: 1

Megan O'Keeffe

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

Ash Highnam

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

I don't believe the "upgrades" and cycle lanes etc are a necessity at all. I travel a lot across the city for my disabled daughter and you hardly see anyone on a bike unless it's on a Sunday when big groups go out. This is also taking away much needed parking from shops along main roads

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Is this really a necessity?

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

This is a huge asset to Taranaki, and so many people utilise this space every year. Even if you implemented a gold coin entry to help with costs would help. Taking this amazing place away will leave a huge dent in our community. Myself and others utilise this amazing zoo all the time. It's one of the very few places I can take my disabled daughter, that is accessible and a place for her to enjoy.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

I believe the top level of cricket brings quite a crowd each year, which in turn also brings more money being spent locally helping boost the economy.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	No

What else?

Spending more money to pay people to "investigate" could be better spent elsewhere.

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

You wouldn't be able to raise rates though as people are already struggling to live.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Not at this stage, people are struggling with costs too much for rates to rise further.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Hobbies are extremely important for a happy society and we don't have enough options for winter so I consider this an important project even though others might not understand the benefits.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

The main thing I love about the zoo is a gated environment for little ones to run around in and enjoy. I don't necessarily think the animals need to stay but some kind of interesting alternative for the kids interactivity and entertainment would also be good.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 -Delay the required work and accept the risks of non compliance and building closure.

Comments

I'm not a cricket fan so I have no attachment to it.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	No

What else?

New Plymouth is a pretty great place, and is maintained pretty well from what's visible. As people are struggling financially at the moment I don't think anyone will accept a rise in rates so this needs to be seriously considered. I'm a mum so my answers are impacted by that. I also think supporting small local business is important including being aware of parking for them otherwise we will lose them.

What else?

Council garden and mowers need more teams during summer when plant and grass growth is prolific. We need more colored gardens and long term sustainable gardens. A community hub at the old Barrett hospital site would be great. Central location with a whare and playground. Could host antenatal classes and facilities could support businesses like flourish or barnardos to provide parents support. Could be a joint project with iwi?

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Elouera Lindquist

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

What else?

I want to highlight the need to upgrade brooklands zoo. I'm shocked that the option to close the zoo is even on the table. I understand that we're in a cost of living crisis and the need to keep rates down, however the zoo is one of the few free attractions that people on limited budgets have; and its been a source of endless delight for kids of all ages. I would much rather see the zoo upgraded and expanded than some of the other things considered in this plan. I would also like to see the zoo better represented in terms of searching for additional funding. Local businesses could be approached for donations, or to put donation collection points at their checkout. Even a 50c or gold coin entry fee on the gate could help. I feel that the zoo's potential closure has slipped under the radar and that the continued focus on the new indoor stadium unfairly targets those of us who are worse off financially. People who are struggling to make ends meat can't afford to get their kids into sport, never mind pay for a new stadium; meanwhile one of the only attractions around that can cater to those worse off is under threat.

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

So over sport being put before everything else. We are in a cost if living crisis, we can't afford the rates increases. This is a "nice to have", not a need to have.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

The zoo is an incredible asset to our community that is far more accessible than a sports hub because anybody of any age can go. Its a place a family can enjoy. While option 4 is desirable, its not feasible in the current economic climate. Please save our zoo.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 -Delay the required work and accept the risks of non compliance and building closure.

Comments

Again, sports are a "big issue" when keeping things affordable for your rate payers should be.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

I cannot stress this enough. Delay the "nice to haves" like the sports hub, and focus on keeping costs low for the time being. The population is struggling financially.

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 3 - Put increasing amounts of \$500,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Sam Vega

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

I feel like there should be more than just two options.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

I don't think a bus service trial is the answer. I don't think the public will have an uptake with this initiative. Businesses are too spread out around the area to sustain regular commuter uptake.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Your future projects ideas are often projects to attract tourists or beautify the region. If the infrastructure was safe and in place, then you could look at the other types of projects but until that is stable then I don't think a fund needs to be created to fund them. You're just robbing Peter to pay Paul anyway, ratepayer are still paying either way by repurposing money from the LCR.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Once again, this is a project that can be looked at later down the road. There are enough sports facilities to take care of sporting events already. the racecourse area is not the best place for this anyway. Make better use of venues already built like Yarrows and TET and various school gyms that sit unused in the evenings.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

Zoo's are archaic and cruel. Even though it's a good free thing for families, you can create a bigger playground or a water type park that will get great for families without subjecting animals to small enclosures and a life having to endure interference from humans and no freedom.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Why would it be unlikely that top level cricket won't come to use the pavilion. You say it has room for 70 people? How many top level games come each year to that venue now (6)? How many groups use that venue? I've lived here for 7 years and have never seen any group (other than the Stags for a few days around new years) use that venue.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

The population of New Plymouth is growing organically, you don't need to keep starting projects to attract tourists or boost population. Concentrate on making the current structure safe and sustainable before looking at the ego projects. Keep the current money to sustain what we already have. I would be keen to know where the money that comes in from events like WOMAD or FOL goes? Is it to a handful of hotels and restaurants. Why not take a gold coin donation for FOL? Why not tag on a cost to WOMAD tix buyers? Use money from those events to help with upgrade. Why do people have to volunteer to clean up the bowl after a concert? Why isn't that charge passed on to the promoter? Maybe a look at how and what NPDC is investing money in and what the return on investment is needs to be addressed. Your fund management schemes might not have a good enough ROI to be sustainable.

Maxine Gordge

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

It's time this project got off the ground. Sports and its participants have been suffering for too long. Sport Taranaki did a great job at explaining the impacts of a lack of indoor spaces. Yr 8 children were having to wait until 9pm for their game of basketball. Having one hockey turf in New Plymouth for a growing code is not acceptable.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

This is a very popular attraction and needs to be kept up to standard.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Honestly, how long has this debate being going on for? It's time something is done here. If cricket doesn't come back to Pukekura Park, the council will have egg on their face AND it will be even harder to get it back here. Look at how popular the matches are in New Plymouth. Inside word, Pukekura Park has the best crowds in the country along with Wellington. Let's do something about it.

Aaron Boslem

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

How about an option to invest XX more to show down the decline. Does it have to be double?

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

A Jenkins

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Please also look at use of rail for both freight as well as passengers. This will help to reduce congestion as well as road deterioration etc

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

this is a "nice to have" project which will not benefit many sections of the community

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 -Delay the required work and accept the risks of non compliance and building closure.

Comments

nice to have but not essential

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

Please stick to essential core services rather than wasting money on headline grabbing ideological / cultural / currently fashionable projects

Matthew Temperton

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Finding somewhere in the middle would be advantageous. Rate payers cannot stretch much more, with private investment needed to top up our contributions. That way existing services can be upgraded. For example, diverting heavy traffic from the port would ensure our port is a desirable place for any future changes. For example, ferries with goods or people, train line should be upgraded also.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

If we used other funds sparingly, namely pet projects, we would have ample funds available to address potential natural disasters.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 3 - Put increasing amounts of \$500,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$5m would be added.

Comments

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	No

What else?

Congestion is terrible. Time to start building infrastructure for the future. See how bad Tauranga is, that's what happens when you don't have any long term plan or ignore the fact your city is growing. New Plymouth could also do with building upwards in the centre of town. More opportunity for people to live and work in town without needing to use their cars to commute.

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

I object to the way that your wording for the preceding questions has been constructed. 'Preferred option' is not an appropriate tag when you are seeking neutral input from your constituent, nor is the suggestive language for the options that you clearly do not 'prefer'.

Julia Ray

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Spending on infrastructure is crucial. Spending on extending the walkway to Waitara is ill advised. As all Police know there is an issue with gaud bikes, dirt bikes and scooters running through reserves, being used to evade police and driving in a way that is dangerous to walkers, and the public. Police can not effectively police this due to the fact that bikes cant be pursued and practically Police have no ability to pursue them across parks and walkways. This problem does not exist in other parts of New Plymouth. Extending the walkway will bring this problem to the rest of New Plymouth. Further SH3 has many crashes between town and Waitara largely due to drunk drivers commuting between Waitara and Town. Extending the walway to Bell Block will introduce drunken motorbikers on to the foot path likely causing death and injury to children, pets and walkers.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Reducing the councils admissions is a meaningless vanity project. The impact on global warming is essentially non existant. Its particularly offensive that is a focus when the council is considering reducing rate for farmers - Farming actually is a huge impact on climate change. Changing councils vehicles over to EV's is a pointless and pocket lining exercise with absolutely minimal actual real benefit.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

You are already looking at increasing rates. At least if rates increase, we can have a say (like we can here). Establishing a reserve with no criteria for what projects it will go to is undemocratic.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

The Brookland's Zoo is the most wonderful free activity available to children and their parents. Why not implement a small charge for the zoo if it needs an extra boost. I believe most people would be willing to pay \$10 for a family of four.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

The current set up is beautiful and suitable for local games. Is it really reasonable to spend huge rate payer dollars for a new cricket ground to host a handful of top cricket games a year when the current set up can already meet the local needs? <https://www.stuff.co.nz/taranaki-daily-news/opinion/300667724/being-beautiful-is-not-enough-for-new-plymouths-pukekura-park-cricket-ground>

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	No
Traffic management	Yes

What else?

Raising residential rates while lowering commercial and farming rates seems to have been slipped into this proposal. It needs consultation. Farms and commercial industries make money. Houses people live in don't. How can you possibly justify the decision? Helping bail out home owners whose properties are in flood zones or going to be effected by erosion isn't the council's job. It is the job of insurance companies. Eventually people will learn not to buy properties in natural disaster zones as they won't be able to get insurance. That is a good thing, don't bail private owners out. It is further not the council's job to provide housing for old people. That should be managed at a national level. Old people in Taranaki can access the same resources the rest of the country offers them.

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Do you really spend that much over ten years with transport in taranaki. Maybe look at spending and breakdown and go from there

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Another one to look at costs and how much is spent each year with this sort of thing

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	Yes

What else?

Change traffic management etc that fixes roads as the job isn't being done to a suitable standard

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	Yes

What else?

Although all options are fantastic , people are struggling to pay to eat let alone having to put more into rates to fund projects that don't help ease the cost of living. Projects like the zoo I feel are worth the investment as it's an important and key attraction for New Plymouth tourism, which brings more money into the region, and an excellent place for parents to take their kids for free where they can play safely - which is good for their mental health. I personally go on a regular basis because it's free, fully fenced and the kids adore it - indoor playgrounds are too pricey especially when you have multiple kids.

Comments

Unfortunately this is a core service which will need to be funded however be more proactive with ongoing maintenance rather than waiting for bottom of the cliff behaviour. All too often it's not until the road almost becomes almost beyond repair that money is spent. All too often money is used for what appears to be big changes.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Karen Cronick

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Simon Ray

Organisation: Methanex

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Investing in infrastructure upkeep is sensible, but allocating funds towards extending walkways to Waitara is an unjustifiable burden on taxpayers. Media outlets and local authorities frequently report disturbances caused by motorized vehicles like quad bikes and dirt bikes encroaching on public spaces, throughout Waitara. This reckless behavior not only jeopardizes safety but also suggests a potential misallocation of resources when considering a walkway to the rest of New Plymouth, especially when Bell Block faces no such significant issues. I have performed a cursory risk assessment, revealing the alarming likelihood of accidents, potentially leading to tragic outcomes. I am compelled to document these concerns, ready to escalate them to the national media should injuries or fatalities result from the proposed walkway expansion. As an advocate for inclusivity, I propose a more practical solution: offering free bus transportation between Waitara and key hubs like Bell Block and New Plymouth CBD. Such a service would ensure passenger safety under the guidance of licensed professionals, representing a far more prudent investment for our community.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Our current focus requires a 'rethink' of capital investment, and not reactionary spending. With better future planning, I believe we can mitigate the impact of future storm damage events, and keep within the current \$200,000 budget.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Climate change is a valuable, but complex science. Wait 5 years, technology will progress vastly over the next 5 years. Spend the 5 years to research and monitor technological advances. New Plymouth represents a population of 90,000, on a planet of 8.1 Billion. Follow the lead of climate change global leaders and ensure 'value for money', this will prevent future rework.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

New Plymouth is nationally respected for its active lifestyle, this should continue.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

As above.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

This is an attraction to New Plymouth and I feel, would contribute towards the GDP at a higher rate than the \$1.44M p/yr.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

This is a 'nice to have' that I do not feel would generate an ROI in the same way as a Zoo.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	Yes

What else?

Continuing doing a good job, but do not lose sight of safety & planning. Preferred options (in green) can draw the stakeholder eye. However, this does not mean it is the 'right' decision.

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Don't shut the zoo. It's the only free safe space we have for our children to play outdoors and see animals. Make it gold coin entry

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 -Delay the required work and accept the risks of non compliance and building closure.

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Just keep planting our place budget

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 3 - Put increasing amounts of \$500,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

Plenty of other options for community use not a community priority utilise it as an event space/ park area and forget about cricket at this location

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

We need more public transport, this is very important to our community. It is lacking so bad

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 -Delay the required work and accept the risks of non compliance and building closure.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

Why do we need to setup CCO's to oversee these projects? This sounds like an unnecessary burden and additional cost? Why can't these be run by the Council direct (they should already be). Also disappointed at the depth and level of engagement on this consultation document. There's much more happening and at risk within the district than the 4 or 5 discussion points raised.

Please focus on the needs of the local community rather than the look at me projects. New Plymouth is a small city with a number of big city problems such as homelessness and struggling families with little support. The large majority of New Plymouth citizens will not benefit from large projects so who are these really for. At this point in time money should be directed to must haves rather than I want.

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

Your Home, Your Say Consultation Document

Submission No: 153

Kimberley McFetridge

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Pull back council spending to the NECESSITIES - road, 3 waters, rubbish. Nice to haves like playgrounds and sports hubs should never be on the table when they come with a rates hike in the double digits. The money allocated to nice to haves should be reallocated to infrastructure.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

nice to have but not with a huge rate hike while we're in the midst of a cost of living crisis.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 -Delay the required work and accept the risks of non compliance and building closure.

Comments

This should not even be discussed in a cost of living crisis - cricket is a niche interest and the majority of the community should not be paying for an interest they are not partaking of.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

Just stop spending on nice to haves and live within your budget like everyone else. Vanity projects may get you your votes but there is a limit on that when it comes with rates hikes. Boring but affordable over expensive vibrancy any day. The vulnerable of our community should be facing a future where they may have to choose personal necessities or paying rates.

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Why is doubling the only alternative? A sustainable increase would be fine but sinking huge sums into road maintenance at the expense of community beneficial project is simply wrong. Why not fund road repairs by increasing parking fees and times covered by charges and dramatically expanding the paid parking areas? Public road space should not be allowed to be used freely for storing private property, the ratepayers are hugely subsidising motorist at the moment

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Is the perpetual investment fund itself not the exact thing that should be used for such asset replacment/recovery if required...

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 4 - Accelerate the programme even further with an additional \$300,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Why create a separate reserve and not just pull from the PIR directly when required?

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

This is the single most important piece of infrastructure in the region which would be used by thousands of people weekly, far better usage than other projects such as Pukekura cricket or Yarrow Stadium which have far far less usage and community impact. Everything possible should be done to ensure this is built ASAP for the community's health and well being

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

The zoo is a great asset and should be maintained, but I still see it as a lower priority than the Tūparikino hub

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Both regional and top level cricket make income from tickets at pukekura Park when matches are on and should be part funding this as a result. Whilst the building does get some community use and some council funds should be used to maintain it, prioritising a single sport facility over the Tūparikino hub which will benefit thousand more people weekly is not acceptable use of ratepayers money. Let Cricket NZ stump up for this.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	No
Traffic management	Yes

What else?

Please just build the Tūparikino hub already, the health and wellbeing benefits to the community and to local clubs and teams cannot be overstated

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

It seems a big ask to do something like this when rate rises are already significantly higher than many are comfortable with. Perhaps this would be more palatable in a better economic climate.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Brooklands Zoo is a place that is well-loved by families, children, parents and grandparents. It is accessible to all, with no financial barriers to entry, while also offering education and learning through play. If the zoo were to gradually close down, I would expect the current budget for it to be redirected to something that offers similar outcomes for young children. And for that to be in the same location, as the Zoo really does make Brooklands Park a sanctuary for families with young children. Included in the many social and community benefits of the zoo is the idea that the young ones who grow up at the zoo become familiar with loving Brooklands Park, and it becomes a special place to them. Then, when they are older, and perhaps not living in Taranaki anymore, the nostalgia of Brooklands Park helps pull them home to your concerts in the Bowl of Brooklands. The concerts which inject vibrancy into our region and money into our economy.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Given the current economic climate I am reluctant to pick option 1. However, I could be persuaded towards option 1 if there was active buy-in, financial support and guaranteed matches from Cricket NZ, alongside a shared space design. A guarantee around a design and vision that enabled strong community use, aided corporate hosting for passive income, and allowed for shared/mixed use would increase the attractiveness of option 1.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	No

What else?

Council Controlled Organisations always feel like a way to be less transparent about what is going on. So, while I may support the ideas, I'd be reluctant to see less transparency at council. I'd also like to see more about supporting (or even including) the outliers in the district. An increasing number of our population are moving to the likes of Ōkato, Inglewood, Waitara etc. While it's nice to have all of these ideas for New Plymouth, those of us in the smaller areas sometimes struggle with things as basic as having enough water (Ōkato), or clean water (Inglewood). Also, while I'm here, it's nice to see council planting native trees etc, but can we please have some edibles or fruit trees included in these new plantings? As an example, feijoa trees make lovely hedging in many areas, and also help feed our communities, while being low maintenance and basically just existing. There is a wonderful area of public feijoa trees near Barrett Domain that are so valued and incredibly well used. They line a public walkway next to the road and are an absolute asset to the people who know about them. There are a number of fruit trees or edibles that grow well in Taranaki, can exist outside of community orchards, and take little to no extra care. So, when planning new council plantings, please consider adding some edibles into all of those natives! We value them immensely, they spread happiness, and it's a fairly simple way for council to do something positive and impactful. Thank you for reading all this!

Tanya Jackson

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

Nicole Attrill

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Please do not close the zoo down. Brooklands Zoo is a much loved and well used asset. It is a wonderful and safe place to take my children. It is the only accessible place I can take my kids where I know they are safe and if I lose sight of them for a moment, I know they can't leave as it is all fenced off. It is a preferred meeting place myself and large groups of Mums and kids as we know they are all contained, can play together and the mums have a chance at a conversation. We can't always afford to go to indoor play places to this. The animals are happy and content and the kids like the small number as it is not overwhelming for them. We use it as a start point for park expeditions.

Comments

We need something because as a province we continue to fall behind other cities. A lack of funding in the passed has led to our current status.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

We do need an improved pavilion but disappointed a pavilion can cost that much to build. I would prefer a plan put forward to making the ground bigger. If this happens in the future the pavilion may restrict what you can do at proposed site. Can we guarantee it will be fit for purpose for National and International levels in the future? The Park is a big disappointment with the lack of use. Why can't it be used for mini festivals over the holiday periods in conjunction with lights festival.

Brendon Gately

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Option 1.5. Spend more wisely. For example, the upgraded footpath on Mangorei Road was needed, but only the small portion between the school and Tupuhi Place. The traffic lights and raised crossing in front of NPGHS have no safety benefit. There was nothing wrong with the existing pedestrian crossing. They are 2 examples of mis-spent funding. I fear increased funding would be used wastefully.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Long overdue. The facilities currently available in New Plymouth are severely lacking compared to other similar size cities and even many smaller places. We should do more now as it will only get more expensive the longer we wait.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

Brooklands zoo is no longer able to cater for its animals in a way that keeps up with modern zoo standards. It is only nostalgia that has allowed it to stay this long. It would have been an ideal spot for the destination playground type facility that is being built on the waterfront.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Pukekura Park is a special venue and should be taken care of. If the choice is between this and the zoo, then it should be a no brainer.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No

Hannah Jeffries

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

I do support the bus service trial as well, but not the further increase in funding for other initiatives.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Given the recent increases in cost of living, this does not feel like a good time to establish a new reserve fund.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

We love the zoo, it is one of the best facilities for families in New Plymouth.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

While I support continued council housing for the elderly, I do not support expanding council housing outside of this demographic. Public housing is best provided for by central government.

Gabriel Swainson

Organisation: Coronation Lodge Rest Home

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Submission No: 195

Tracey Zehnder

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Please offer a bus to lepperton for trips to town weekday and weekend. This would be good for all and save additional cars on the road

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

1. Footpath to connect Lepperton to waitara, and bell block
2. Bus for the above and to town
3. walking Bridge to connect the valley to Lake rotomanu

Yasemin Hinz

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 -Delay the required work and accept the risks of non compliance and building closure.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

No more housing developments in Bell Block.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 3 - Put increasing amounts of \$500,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

BUT... please actually use the money wisely. On forms on transportation that people actually use and please, do it once do it right!

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Buses would be great but they need to be reliable! Also, if pay more for a more comfortable bus...

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Brooklands Zoo is an incredible asset to our community in so many ways.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Honestly - How many people genuinely come to cricket matches to make this worthwhile...

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	Yes

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

If we don't do it now, costs will increase

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Also funds from Central Government, no Council can go this alone!

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 4 - Accelerate the programme even further with an additional \$300,000 each year.

Comments

We really do have a climate problem, we need to do something to alleviate disasters.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Again we need help from Central Government

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

We cannot keep delaying things

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

Close it down, I don't believe animal should be in a Zoo

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 -Delay the required work and accept the risks of non compliance and building closure.

Comments

Somethings just need to go!

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	No

What else?

The council should NEVER commercialise water! Encourage more use of Solar Energy, and include Solar in any new builds
