Submission No: 601

Margaret Tyler

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

This was promised to ratepayers, is it another promise that this council is willing to break?

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

We don't need it.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	Yes

What else?

We need to get rid of extra non elected committee members, that would be a huge saving. Also Waitara needs to have channel and kerbing and footpaths on all streets, surely the days of open drains have gone.

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

This zoo is a major asset to New Plymouth . Our granddaughter loves it and wants to visit every time she visits.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Kevin Turner

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

No idea of what the existing programme entails

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Just shuffling the same money from one pot to another - no definition of what a lifestyle reserve is to be specifically used for

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

How will Taranaki cricket support this - they have had a lot from NPDC in the past

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

Questions subjects very loose with no definition..

Tiffany Harris

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

New Plymouth wouldn't be the same without the zoo for the kids. It's one of the best places to take them because it's free, all enclosed so they can run around, educational and they can also play and have picnic. Would be the worst thing the council could do closing it down. I would happily pay more rates to have those upgrades!

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

Council needs to abandon vanity and 'nice to have' projects and start acting responsibly to its rate payers and just focus on infrastructure and services. They also need to look at themselves and see where costs can be cut - do we really need so many staff and so many on high salaries for instance?

Alban Rodgers

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Cut down the use of SO MANY red/orange cones @ 70cents a day plus the vehicle and operators (who I saw sitting in their truck for the duration of the job) Health and safety is fine I'm all for the safety angle but the overkill in cones is ridiculous

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Comments

Utilise the PIF for major works NOW the idea of having a fund to help our future ratepayers is admirable but there may be nothing left for them to spend it on when the time comes to use the money!!

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

We are wasting our time and money while China India and the USA keep up with their programs

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

With the cost on living issues, lets learn from the incompetence of other councils, and focus on CORE council responsibilities for 5 years. (or so)

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Option 3 if, it does reduce rates... I can't understand how it would though

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

PLEASE let stop wasting money on this nonsense. PLEASE focus on core council acountibilities

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

ONLY, if it relates to key capital initiatives we must do, i.e. water

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

This doesn't make sense. This can not be a priority.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

This is an excellent asset, but some of the work described in the media is nonsensical. Maintain!

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

I'd accept option 1 if, the multi millionaire cricketers, or their associal contributed to this initiative. This should not just fall to the ratepayer. Or, Like the pool, everyone using its should pay on entry, every time, or pay for season passes. Cricketers should not get this for free, if swimmers have to pay to swim (as an example)

Option 1 - Do not continue the existing programme.

Comments

Waste of time and money for the impact you are having.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Sounds like a councillor/mayoral slush fund.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Unneeded and a waste of money. You've been conned by the self-interested sports codes and Sport Taranaki. Also completely extravagant at a time when people are struggling to pay for basics. The rates increases associated with the lending and the operational costs of somewhere north of \$1 million per annum are too wasteful for a negligible return.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

The zoo is more of a nostalgia trip than anything else. It is past time that council admitted that this is not part of its core business and should let it go. Particularly given the huge operational costs and what are likely to be increased compliance costs to carry on meeting MPI requirements. I know that no councillor wants to be known as the one to close the zoo, but it's time to put on your grown up pants and make the right call to shut it down.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

It would be a great facility, but I just don't see how we can afford it right now. I don't think you'd get any worthwhile outcome by investing \$1million on the existing dilapidated structure either - it is too far gone to fix. It's time to stop subsidising cricket with hundreds of thousands of dollars maintaining an international class field that gets used half a dozen times a year too. Maybe invest at a more economically secure time in the future if you can be assured of getting a decent return on use and recreation (maybe women's cricket and other activities making greater use of the space?)

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	No
Traffic management	No

What else?

Please don't invest in housing for the elderly - that is a central govt/Kainga Ora responsibility. Every other council in NZ is looking to get out of the low-income housing game, so why is NPDC trying to get into it?! Sheer obstinacy, virtue signalling and stupidity would be my guess. You'd help more elderly and low income people by reining in your profligate spending on vanity projects and stupid programmes with no benefits. I'd hate to think how many hundreds of thousands you've already spent on a TACH facility that isn't needed and we haven't seen any benefits from. I'm also sick of the mayor trying to milk the old "Taranaki doesn't get enough road money" cow and trying to implement what look suspiciously like elected member slush funds. You guys waste so much money on stupid stuff and don't seem to realise that real people are paying for it. Most people don't go to Puke Ariki or the pools or get benefit from the millions you spend exclusively on iwi each year. I live rurally and the only benefit I get from council is using a few roads, and even then most of my travel is on SH3 that isn't funded by NPDC. I don't get any benefit from any other council 'services' or any of the 'woke' positions that council seems to be littered with that I pay an obscene amount of money for. Please read the room, the tide of public opinion is turning, and many people don't want you spending money that isn't yours on things that most people see no benefit from. If you think we're conned by his smoke and mirrors PIF messaging he's also an idiot - either way it results in paying more rates. We're not as stupid as you seem to imagine we are Mr Holdom. While we're at it I see you're spending money on the old carpark to appease a few grumpy old businessmen. Just when I thought you couldn't get any dumber... At least tell me that if you're spending the money it will reach the earthquake prone buildings minimum standards for public use so that it's at least not completely pissed away. There's a lot more that I could bring up to try and convince council to be a lot more transparent and tell the community what they're spending, and on who and what. But I know that whatever I or anyone else says will be whistling in the wind and the agendas of the Mayor, the CE and their cronies will make it through no matter what and the real agendas and spending will be obfuscated as much as possible so that the community doesn't really know what you're getting up to.

Comments

What percentage of Taranaki population play cricket? What percentage of that percentage are male? Have a cricket centre in another town in Taranaki - eg Hawera.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

Hurry up and develop only one council - 4 for our region is totally unnecessary and financially irresponsible. One finance, IT, HR, library, arts, policy, customer service....etc across all councils, with separate governance and consultation mechanisms. Yes there will be some subtle variations, but fundamentally all communities require similar services and have similar aspirations. I don't want to have rates increases to fund drinking and waste water. We have to provide our own drinking water and sewerage, living in Tikorangi/ Onaero. It's a challenging job you all have to do, so think more strategically wherever possible.

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Please make sure it maintains its current historical connections.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

Water charges. With the incoming residential water charges that not only do I think is absurd in a province that has enough that falls form the sky annually. I also believe it is past cheeky but is out right rude that the council that believes is can charge residents for water use will happily put up a 'amber warning' at central popular swiming beaches becuse its infrastructure overflows the town sewage into the sea and think this is OK. If a farmer did this you'd be quick with a fine and a warning to sort it out. If you want to charge for water use, I want the sewer water fixed that local beaches don't go to aleart becuse it rains.

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Comments

Ridiculous to have this as 2 options. Option 2 for me is dependent on what it is they are proposing to do with the \$315m. Yes we need to do something but I'm not prepared to have this option put into the pot with an already chosen expense! Obviously I don't know what the next question is....if I don't get any other questions on this part I like to have the opportunity of changing this choice

Kath Palmer

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

While I agree there MAY be a greater long term cost implication for option1 we DO NOT KNOW THAT for sure as many financial issues may change in the next few years making this issue irrelevant. Also I think planning of this scale for a future population increase (which is minimal in relative terms and not all based in New Plymouth) is absurd.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Both option 2 and 3 are too much financially. I support the concept of such a fund (ie putting aside funds for a rainy day) these amounts are not sustainable for the community/ratepayers. A smaller increase would be more realistic given that not every year has "unexpected" storms to the financial level indicated by these options (2 & 3)

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

While I have indicated option 1 I have only done so because none of the options allow for continuing the existing programme at the same cost. I do not believe increasing the programme funding by \$400,000 per year from year 2 onwards is financially feasible for ratepayers.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

This is ridiculous; it seems Council wants present ratepayers to fund projects for future ratepayers at no cost to themselves. If projects are needed in the future then deal with them then not now. I cannot believe that Council seriously expects current ratepayers to fund future projects given the serious financial impacts of the cost of living increases of these past few years. Some people can't afford to feed themselves or their families properly due to the sky rocketing costs of living and Council proposes further increases or lack of rates subsidies at a time like this. Given the last rates increase and the corresponding rates increases from the latest property valuations (which were vastly over valued in Urenui at least) I would have thought the Council would have a decent financial surplus by now. My rates are just over \$50 per WEEK now and I am on a fixed income (Nat. Super) with little expectation of any increase from this Govt. Of course I am NOT going to support this insulting idea.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

I have indicated option 1 as none of the options address the basic reality of this project; make it user pays and fund raise from the groups of people who want it and will use it. Stop expecting non users to subsidise projects that are of no benefit or use to them; we have enough sports facilities. Try looking for facilities or projects which improve the intellectual growth of the community and which are sadly lacking in Taranaki.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Do what is necessary to keep the Zoo operational and reassess the situation when the financial climate improves.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Again do what is necessary to maintain the Pavilion. If this means it may not be suitable for domestic cricket then implement a user pays to address that. I didn't see any mention of hosting top level cricket making any profit for the Council/community. There needs to be a financial rationalisation for ratepayers subsidising venues only suitable for specific sports. We subsidised the Yarrow Stadium for years and I doubt that we got our money's worth from that failed project.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

This Plan horrified me when I read it. The economic situation of the past few years has not improved putting the cost of living at record highs thereby reducing the community's ability to fund increasing expenditure by the Council. The proposed rates increase for this Plan (especially in the next 2-3 years) should the Council's preferred options be implemented frightens the s--t out of me because it means I will probably have to sell my home and move out of Taranaki. I literally cannot financially afford any more of Council's pipe dreams. The services Council provides to Urenui are minimal at best (eg no public transport) yet we pay the same rates as New Plymouth ratepayers. With the cost of petrol now nearly \$3 a litre I literally cannot afford to travel to New Plymouth to use any of the facilities Council is so blithely proposing (eg The Hub or Bellringer Pavilion) or wants to upgrade (eg Museum). Invest some money into Taranaki's smaller communities like Urenui in terms of community and economic development so that community actually means the whole of Taranaki and not just the New Plymouth community. There are many people in our smaller communities who have the requisite community and economic development skills to assist in this task if ONLY Council would spend some of (my) ratepayers money on these types of projects. I am sick of seeing vast sums of money be spent on projects that benefit the few (ie sports mad people) and little given to local communities which need that money to establish initiatives that promote economic and social growth. Sports (and I include cycling and the Walkway under that heading) are not crucial to a community; access to the Hospital when one cannot drive (due to injury or illness) is, especially to the older population. In my opinion Council needs to get away from the model of Council providing all the services and start helping communities to provide their own answers to their own problems. My suggestion is that Council dis- establishes its Community Boards and sets up CCO's to facilitate community growth rather than setting them up to manage water, transport etc. Do that and I will gladly pay any rates increase or forego any rates subsidies. As a last comment I have just read the final page of this survey; I am over 65 years (just) but I am not the traditional old age pensioner type; I am a "baby boomer" who was very involved in the social and political issues of the 80's and who was living in New Plymouth in the 80's when New Plymouth/Taranaki had a thriving alternative intellectual culture that gave the region vibrancy & colour. In those years we weren't concerned about whether New Plymouth was the most beautiful Small City; we were more interested in the community's health and welfare and not what it looked like. Yet today we hide our older people in Retirement Villages like the one at Bell Block, a monstrosity and eye sore if there ever was one. How that contributes to the concept of a beautiful small city or a sustainable community I will never know. What an absolutely horrible way to live, isolated from the wider community in terms of that all your neighbours are exactly the same as you.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

The zoo is a very important asset for New Plymouth. A lovely place to take family, young and old.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

It's a lot of money to replace it, could be spent fixing our roads and footpaths.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

Our roads and a lot of our footpaths are shocking. I am sight impaired and have tripped many times where tree roots are lifting the footpaths etc.

Alan Chamberlain

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

It is unlikely to need a drawdown for storm damage so just let it accumulate. Don't rip the ratepayer off, some have trouble paying them as it is.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Woke greenies are wanting the earth.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Every councilor will want to raid it to fund their vanity projects, for free! Make them front up and sell their projects to the ratepayer.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services No

Housing for the elderly

Traffic management No

What else?

The ratepayer is not an open cheque book to be raided for vanity projects. What happened to the water, sewage, roads of years gone by? Councils are branching out into vanity projects. Council needs to consult widely!

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Debra Simes

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

This seems a modest amount \$315m over 10 years averages only \$31.5m per year. I support increasing this expenditure.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Insurance? Where/how/to what extent is insurance a factor?

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Improved amenity as much already substandard

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

It is an exceedingly ugly building. Cricket organisations should fund replacement as they are direct beneficiaries.

Council Controlled Organisations

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

The location of the hub at the racecourse is inappropriate. It should be at Hickford Park where the infrastructure already exists for sporting venues and activities. There will be traffic problems and it is simply too special a venue to be used for an ugly sports hub. Vested interests are pushing for it to be located at the racecourse, detrimental to all other users.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

All other sporting codes have to fund their facilities themselves, Why not cricket?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

Incredibly sad to say this because it's such a unique and great thing to have in our city centre. But I imagine at some point it will be closer down due to lack of revenue and funding so it might be worth doing sooner rather than later.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	No
Traffic management	Yes

What else?

I would like to see a hub created in New Plymouth in the city centre like an eatery or where businesses can run shops out of. New Plymouth is missing a "buzz" about it and the main street is often dead. Something to enable vibrancy and connectivity across the city centre.

Leah Graham

Wish to speak to the Council: Yes

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Charge a heavy vehicle toll to Non NZTA roads for heavy vehicles such as the Fonterra Tankers. Slower speed limit for vehicles over certain weight. Major industries, with a large number of fleet vehicles should have to pay a high fleet number? High weight fleet vehicle fee. All of these options combined should provide the money required to cover future transportation asset costs. Better yet, make businesses use the train line - to reduce number of vehicles using the roads, then less damage and hence less costs. It should not fall to the rate payers, and increasing their rates. More qualified people at council so they can manage contracts and projects more efficiently and perhaps not let consultants and contractors charge extortionate amount of money for things they probably haven't done.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Better qualified engineers and project managers who can do the design work themselves instead of needing to hire consultants and contractors to do the work the council staff should know how to do. Send all people working in stormwater on proper SW training and check qualifications of maintenance staff and operations. No maintenance or operations manager should be without Tertiary education degree. Same goes for infrastructure managers and any planners and subdivision managers/resource consents etc. Stop hiring people within council who aren't qualified. Stop hiring maintenance managers and network operations managers who aren't engineers. Anyone who is making a decision on behalf of the Water/waste/stormwater networks and roading, cannot make any decisions in relation to these networks unless they have an appropriate engineering degree. Even chief executives and SLT must have ENGINEERING QUALIFICATIONS. THIS IS WHY NOTHING WORKS. Because you keep moving council staff who have worked at council for 20-30 years, have no other experience and have no formal training or qualifications.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

More available funding for community led and individual initiatives and business ventures for sustainable land management, climate change and energy recovery. reduce costs to increase funding. should not increase rates. if only a small group of people are to benefit i.e. building a new sports stadium, then this should not be able to come back to rate payers to cover. the people who currently use the facilities and benefit should have to cover costs by fundraising etc

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

It won't be spent fairly. Processes and procedures won't be followed with allocating. Decisions will be made that only favour one or two narrow groups of people, so why should all rate payers have to cover these costs. especially if they make an effort to not consume large amounts of resources. It is not fair rate payers have to pay for the incompetence and lack of suitable qualifications of council staff

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

how about better training, more qualified people, better management of consultants and contractors, working harder, and perhaps something can be completed close to time line and closer to budget. if budget is way out, then look into who developed the budget, and how they calculated the energy budget and why is it so far out? Bad Engineering estimation

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

it is animal cruelty and inhumane. put them poor animals out of their misery and stop wasting rate payers money. of all these Long term plan initiatives, not one of them is important or necessary, I would be spending money on more water reserves so the future generations have access to clean and safe drinking water. Did you know that as a human there are THREE things of which we require for life. And without them 3 things we cannot continue to live. One of these 3 things is WATER. The importance of clean and safe water is astronomical.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

Honestly, are these initiatives the best ideas you can come up with? How about spend our money on helping us the community. How about better management of leases, and rotate them as they are legislatively supposed to. Kick people off properties and land leases if they have expired. Make lessee spend more moeny. Stop selling council property off or stop giving it away to the farmer next door who owns half the road. Start following legislative directions in that if a council property or land is no longer required, the how about you advertise it in the local gazette like you are meant too, and provide the opportunity for more people to have a go at leasing council lnd to do what they have always wanted to do. actually help the meomberrs of the community. subsidise local horticulture to provide local families with saf food.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	No

What else?

Better decisions on how to spend council money are needed. More educated and qualified people are needed in certain positions, such as water engineering, roading etc.and then perhaps better decisions and better management of resources and money should improve. How about ask the local community, then vote.

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

We cannot afford the sports hub. If it is going to be as popular as you predict then it will out grow the area available before too long then the money spent will be wasted. Traffic congestion is bad enough there now. Wrong place, too expensive.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Comments

How about getting the cricket community to raise funds like the speedway/equestrians are in Stratford.

What else?

Any investigation means spending more money and usually not for the better. Concentrate on getting the water and housing sorted and a massive cut on traffic management. It is way too extreme.

Judith Hellyar

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Comments

Increase spending 30 % reroute Merrilands buses into Devon st coming into town so us older folk can manage the walking around town currently because of One way system if wanting businesses near Eliot st have to walk from bus stop along to lights wait for long run of traffic west cross with lights wait again for east traveling long run of traffic for green light then cross again then walk to Devon Street and whatever shops but with all that walking and waiting at lights we are too tired and have given up buses for most things, we being the regular older folk that used the service often before buses taken from Devon st. Coming home catching along Courtenay street is not so bad

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Comments

the increases are too severe for us pensioners invalids and disabled. I recomend Boosting by \$350,000

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Comments

All increases offered are impossible to us with only income the seniors pension and the Government rebate for low incomes used to cover 1 1/2 quarterly installments and has shrunk to not even cover 1/2 1 installment without rates going up even more

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Comments

Too many grand unrealistic plans anyway many items will be used by just a segment of p[opulation and by us older folk most not at all

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

please delay beyond this long term plan though I would rather no buildings or structures on our Racecourse used for Multiethnic day for disability functions for children etc nice and flat and central Yarrows Stadium not accessible to many disabled and not central for those of us without cars using buses and taxis

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

This zoo is the only one many children and adults can afford to go to and even Auckland etc folk cant afford Auckland zoo but when visiting family here enjoy Brooklands Zoo including mine. It is a favourite place of so many of us adults and children and we come as often as we can

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

My friends and I use the toilet at the garden sheds and always have when at Festival of Lights. We park up Victoria road but wont go to playground toilets as we have always found them disgusting with bowel motions on the floor and used nappies paper all over the place in spite of regular attention by staff and walking that bit further to toilet behind Tea House we cant manage so want that shed and its old but always clean toilet retained please

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

The racecourse is a very important green area making a beautiful introduction to New Plymouth for visitors and locals and is part of our Brooklands Park and needed for WOMAD accommodation and other temporary things. I and others do not want to see structures sports courts etc on it. Inglewood Hub is not far away. Whenever I am driven almost anywhere it is usually along Coronation Av and I do so enjoy seeing the course especially as I do not get out of town to see fields in the countryside and coming home the view of Egmont with racecourse and Pohutukawas in foreground is so pleasing for 78 years of living near

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Introduce

Big Call 3: Paying it forward

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

We need to re-think the use of the parks and reserves we currently use and maintain. Some radical and even unpopular decisions need to be made especially regarding sports facilities.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Move cricket to Yarrow Stadium. The stadium will always have first class facilities for a wide range of sports. The Bellringer pavillion is best suited as is. The park needs to have installed an all weather multi sport synthetic ground. This would enable more sports to take place, some are desparate eg hockey. We could back off the racecourse hub and satisfy the demand from clubs with less expenditure.

What else?

Walk way extension in the long term maybe not so important though as spending on infrastructure now Water issues etc Maybe multiple uses for Yarrow Stadium could be thought of so we get some value out of our money there ! Was never a fan of spending so much money for rugby ! Please don't shut down Brooklyn's Zoo ! Too many families and visitors use it. ! The city is a beautiful jewel in NZ. We see so many visitors from out of town who love it ! We love it. Steady ship as she goes ! Some increase in rates necessary and inevitable of course Thank you for the job you all do now in NPDC. We are blessed to live in such a stunning spot and inevitably we have to both appreciate what we have and pay for it too!

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

This question is a beautiful way to blackmail residents into paying more rates, considering the current budget isn't used to maintain these assets now where would the additional funds end up?

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

yet another question where rates increase and no real pay off for the ratepayer

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

climate change is enviable, spending money to slow it down is like flushing money away

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

A reserve is important but we do not need more hipster art, lets invest in building a functioning city over a giant art gallery

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Community sports and social engagement is important. Dont throw away the existing plan, which clearly was unsuccessful build on it to create something New Plymouth can be proud of and continue to host world class sporting events

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

While the zoo being free has a certain appeal, a simple \$2-\$5 general admission is fair and would go along way. I also feel the space could be better utilized for food trucks for cafes to increase revenue

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

the park is a piece of history and should be maintained however we really need a new facility as part of the multi sport hub. Bay oval in mt maunganui is a classic example of how simple can be very effective.

What else?

Stop the lifestyle capital garbage! Pushing that ideology has made our home town far more expensive than it needs to be. We have natural beauty surrounding us look after it! we don't need to make our region any more desirable than it already is people will always come to see our regions beauty. Sports associations should and will find money for fixing their own facilities if left to ruin. If all sports associations get together funding the multi sport hub surely would become possible. Having rate payers funding the hub is an absolute joke. If the hub was to go ahead it would need to generate enough money to look after itself and any future upgrades otherwise it would be another hole in our already torn pockets. As I say every time in these surveys "focus on the needs not the wants that is you're job as councillors"

Mikayla Boslem

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services Yes

Housing for the elderly No

Traffic management No

Maureen Hurley

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Buses in NP are empty and appear to be a waste of time, maybe more smaller regular buses from outside shops in the outer suburbs would be a better idea.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Never can be too prepared

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Can afford to do this it is a vanity Project must be stopped

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

This is a wonderful asset for NP and must be kept at all costs

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 -Delay the required work and accept the risks of non compliance and building closure.

Comments

Can't afford it stop the work

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	No

What else?

Traffic is not an issue, at this time water is not necessary for review and the elderly need affordable warm dry housing

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Vital that money is spent wisely on this

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

As above comment

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

I agree with option 2

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

My view is that the proposed site at the racecourse is NOT suitable . I would look at an alternative site north of the city ie Bell Block . A decent indoor facility is required.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

A very popular attraction

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

There is no way the ground will have games any greater than domestic cricket . The city has not the population base and the ground is not international size .

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services Yes

Housing for the elderly

Traffic management Yes

What else?

I fully support a multi sport stadium and its not at Yarrows or the racecourse. Vacant land north of the city gets my vote. A few more small roundabouts in NP would solve some of our present traffic problems.

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

It ain't broke yet, but it will be.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Because this region has ample fall from the mountain to the sea. I believe that there will be minimal flooding.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Unfortunately climate change is here to stay.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

It's not that important.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

This is a very important subject as I believe that all sports should be centralized at the Racecourse.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

This is another great asset to our city.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

This is another valuable asset to our district.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	No

What else?

I think that I have said enough.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	Yes

Hannah Jordan

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Don't extend the coastal walkway then that no one wants then you'll have money for roads & footpaths. Fix water infrastructure that should have got fixed years ago to deal with increase in population

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

The government will always assist in a natural disaster, so minimal increase here

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Higher frequency bus service will help get cars off the road. No one takes the bus as it's not fit for where people want to go and times don't suit people especially workers

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Michelle Doorbar

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Not spending any more from increasing rates. Spending more by reducing spending on things that are wants rather than needs. For example projects that are not needed, with budgets that blow out massively.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

No amount of money is going to be able to see full recovery from storms, many coming from climate change.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Individual responsibility, which may come from necessity via inafforabiliy, should increase. So the funding for alturnative transport options, in New Plymouth, could well be, in large part, accommodated by individuals. With things such as ride sharing, cycling, walking, using existing public transport. It would seem the public transport is less the issue and more that people are not using it.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

This is a mess and needs some calm clear direction.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

Andrew Cotter

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

doubling the amount spent isnt needed. the focus needs to be put on doing what work needs doing, when it needs doing - reduce the bureaucracy and bandaids. stop spending money on traffic calming measures and fixes that are not fixes and just make things worse. stop getting the highly paid - out the gate consultants to design impractical and dumb changes. parks dont need huge amounts spent. try and reduce the farcical traffic management expenses and sheer volume of cones and disruptions. this must cost everyone a fortune for no benefit. roads need to be functional. nothing needs to be extravagant. keep it simple and practical.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

is there any actual need to pilfer money from the PIF, if we get something that bad, why not look at using that money IF and WHEN required, not just taking out of the 'bank that us earning interest' and putting it into the day to day spending fund...

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

there is no point in wasting money on stupid busses that hardly anyone uses. we need to do something, but not going overboard and not making up frivolous plans. focus on what actually makes a real difference.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

PIF is better spent on needs, not wants. if money does get put into a fund, it seems to be too much too soon. lower amounts would be better otherwise this seems like a trough for people to slurp out of and siphon off onto pie in the sky ideas

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

this needs to have an element of user pays and also restraint on design - needs to be functional, not extravagant. look for some savings

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

the zoo is great for kids, but its also pretty lame really. having the facility is great for the region. be careful with funding, look for savings, again functionality over extravagant

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

replacing sounds like the right idea, but how does the cost get that high, scale back on the extravagance and elegance. make it practical. if the cricket community want this, where is their funds? does the cricket that supposedly this will bring go back into paying for such a facility? it should. otherwise its ratepayer funding a small sector.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services Yes

Housing for the elderly Yes

Traffic management Yes

What else?

I reiterate that council should focus on practicalities and functional designs and options, not extravagant, flamboyant expensive options. council needs to be a lean efficient machine, not a bureaucratic mess. push to ensure your contractors do a good job, and come in under budget, not just accepting they do a shitty job for a high price. stop them adding the 'extra 0' just because its council. make sure this is well monitored. people are struggling to live within their means, and council needs to do this too - if we cant afford the nice to haves, dont do them, focus on putting the food on the table (ie water/waste/roads). things like walkway extensions are nice, but why do they cost so much, take out the inflated hoo-ha from these projects and get real on what things should cost. if it means less hui, get on with the doi.

Submission No: 783

Garl Adlam

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

These are 2 ridiculous options surely there is another option somewhere in the middle

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Local government and private Insurance should be the backstop to natural disasters not cash injections by the council from ratepayers reserves.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Climate change options should only be initiated if they are cost effective.

Big Call 3: Paying it forward

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

This facility should not be seen as a council core service. Make the land available for interested clubs at a perercorn lease but council should not be funding individual sporting codes infrastructure.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Maybe MPI standards are too high for our community and we should be reassessing the aims of our current zoo as it relates to the modern world

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services Yes

Housing for the elderly Yes

Traffic management Yes

What else?

I believe that in the present financial climate council should be refocusing on what are councils core services obligations and scaling back on any social and cultural entities that cannot be self funding.

David Robinson

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

We should stick to must haves rather than nice to haves. In NZ and New Plymouth we must learn to live within our means.

Submission No: 785

Kevin Buley

Wish to speak to the Council: No

Big Call 3: Paying it forward Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

The price of admission is the biggest barrier to a zoo or aquarium visit for NZ'ers. Thanks to the support of the Council, Brooklands Zoo continues to have free entry. Brooklands Zoo is therefore able to provide a level of community accessibility and a route to connecting those communities with nature and conservation in a way that no other zoo in New Zealand is currently able to deliver. The nature connectedness that Brooklands Zoo offers its community also provides a powerful route to supporting health and well-being for whanau at a time when many people continue to experience challenges in this space.

Comments

The zoo is such an asset to New Plymouth. Visited regularly by families young and old. Bringing visitors to the region who I often meet. Children have memories of time spent there when young. Especially for families who aren't very well off this is somewhere they can take their children. Giving them an animal experience. I think it should be upgraded to the best it can be for future generations to enjoy.

Zoos are forms of animal abuse and rate payers money shouldn't be used to fund or support them. Animals are sentient beings and experience life in the same way we humans do and keeping them in zoo is not natural and it is abuse. And its just so we can be entertained by them, time to move forward and away from these things.

Nathan Kinane

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

Cut back funding on arts in public places and also funding on the Len Iye centre.

Roads are shocking

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Of course upgrade the zoo - no question about it surely. Do you even know how many people / children for through these gates. The huge amount of pleasure young and old enjoy here. A huge highlight to the city and Pukekura park. Charge adults \$5 each children free or concession cards e.g. 4 stamps 2 visits free for local people. Keep the zoo!

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 - Delay the required work and accept the risks of non compliance and building closure.
