#### 1. Introduction

This document, Summary of Submissions, summarises the decisions requested or inferred for each submission received on the Proposed District Plan Change 49 (PPC18/00049) Johnston Street, Waitara Rezoning. Where no decision has been specifically requested, Council Officers have where possible, inferred the decision requested from the text of the submission.

The Proposed District Plan Change 49 was publicly notified on 25 June 2019 with the period for submissions closing on 23 July 2019.

A total of 18 submissions were received in relation to Proposed District Plan Change 49 and this report provides a summary of those submissions in accordance with Clause 7 of the First Schedule of the Resource Management Act 1991 (RMA).

Full copies of the submissions are available and can be viewed at:

- Civic Centre, Liardet St, New Plymouth;
- Library and service centres at Bell Block, Inglewood and Waitara;
- Puke Ariki and community libraries; or
- Online at newplymouthnz.com/planchanges

#### 2. Further Submissions

The following persons may make a further submission, in the prescribed form:

- a) Any person representing a relevant aspect of the public interest; and
- b) Any person who has an interest in the plan change greater than the interest that the general public has; and
- c) The local authority itself.

A further submission may only express support or opposition to a matter raised in an original submission, and must provide reasons for supporting or opposing the matter in the original submission. The further submission must not raise new points of submission. Further submissions must be in writing and be in the manner prescribed in Form 6 of the Resource Management (Forms, Fees and Procedure) Regulations 2003 and must state whether you want to be heard on your further submission. Further submission forms are available at the above listed locations.

Please send further submissions to New Plymouth District Council, Private Bag 2025, New Plymouth 4310, Attention: District Planning Team or email to submissions@npdc.govt.nz.

#### Page **3** of **30**

The closing date for receiving further submissions is 5pm Monday 2 September 2019 and within five working days of lodging it with the Council you must serve a copy of it on the person(s) who made the original submission(s).

#### 3. Process from here

Once the Further Submission period has closed (2 September), a hearing date will be set and a Planning Report identifying and summarising all the submissions received will be produced. The Planning Report will provide an impartial assessment of the merits of these submissions, including whether the matters raised are valid considerations under the RMA. It will also contain any recommended amendments to the Plan Change to address matters raised by submitters.

Before a formal Council hearing is held, a pre-hearing meeting may be held to help clarify, mediate or facilitate a resolution on any matters raised in submissions. The Planning Report will be circulated to all submitters and further submitters in advance of the formal Council hearing. At least 10 working days' notice will be given of the hearing date.

Anyone can attend the Council hearing, however only those submitters who have indicated that they wish to be heard will have the opportunity to speak. Submitters can nominate a representative or consultant to speak on their behalf. The Hearings Commissioners will consider all relevant matters before making a recommendation to Council for a decision.

All submitters will receive formal notice of the decision on the Plan Change, including the reasons behind the decision reached. The decision will also be publicly notified.

Any submitter who is not satisfied with the decision has the further opportunity, under Clause 14 of Schedule 1 of the RMA, to lodge an appeal with the Environment Court.

#### 4. Submitters

The table in Appendix 1 of this document provides the names and addresses for service of all those who made a submission in relation to Proposed District Plan Change 49. Each submission has also been assigned a unique reference number. The purpose of the table in Appendix 1 is to help any person who makes a further submission to meet their legal obligation to supply a copy of their further submission to the person who made the original submission. The copy must be sent to the original submitter within five (5) working days of submitting the further submission to New Plymouth District Council.

Page **4** of **30** 

#### 5. Summary of Decisions Requested

The tables below in this document summarise the decisions requested or inferred by submitters on Proposed District Plan Change 49. These tables are to enable people to establish whether a submission might be of interest to them. The summary is not a substitute for inspecting the original submission itself, and it is recommended that this is done once you have identified any submissions of particular interest.

In addition to the reference numbers assigned to the submissions received (i.e. S2, refers to Submission Number 2), a unique numeric identifier (i.e. 2.01) has also been applied to the specific points/matters raised in each submission in order to provide greater specificity and extra clarity. This unique identifier(s) should be specifically referenced in any further submission you may wish to make relating to an original submission. The submissions below have been summarised in numerical order.

A submission (#17) requests a decision to rezone their land to residential – submissions can only cover matters within the scope of the Proposed Plan Change 49 which is limited to the site of the plan change, therefore this request is considered outside scope. However, this submission point is included for completeness.

# Table 1: Summary of individual submissions

| Submission    | Plan Provision                                  | Support/ Oppose | Reasons   | Decision Requested   |
|---------------|---|-----------------|---|--|
| Point         |   |                 |   |  |
| Number        |   |                 |   |  |
| S1 Central Ho | use Movers                                      |                 |   |  |
| 1.01          | General - the Plan<br>Change in its<br>entirety | Support         | The submitter believes the future growth for the district is needed.  | That the proposed private plan<br>change be approved in its<br>entirety. |
| S2 Justine Le | hmann   |                 |   |  |
| 2.01          | General - the Plan<br>Change in its<br>entirety | Support         | The submitter believes the proposed development will be hugely<br>beneficial for the community and that the rezoning should go<br>ahead as planned. The submitter comments that Waitara needs<br>this boost to its economy and infrastructure.  | That the proposed private plan<br>change be approved in its<br>entirety. |
| S3 Michael M  | liners  |                 |   |  |
| \$3.01        | General - the Plan<br>Change in its<br>entirety | Support         | The submitter declares their association with the applicant in a professional capacity in the supply of banking services. The submitter details that there is no suggestion of a gain being made personally were the plan change to progress as presented.<br>The submitter details that the applicant has made a significant contribution to the improvement in quality and supply of residential housing in the Waitara District through his in-fill building activity. | That the proposed private plan<br>change be approved in its<br>entirety. |
|               |   |                 | The submitter believes the proposal as presented represents a<br>superb opportunity for the NPDC to meet the objectives of its<br>Future Urban Growth plans in a logical location both socially,<br>economically and infrastructurally.<br>The submitter notes that there will be an onus on the local<br>authority and NZTA to invest in roading, particularly at the<br>intersection with SH3 – although the submitter already believes<br>there is.                    |  |

Page **6** of **30** 

| Submission<br>Point<br>Number | Plan Provision                                  | Support/ Oppose | Reasons  | Decision Requested   |
|-------------------------------|---|-----------------|--|--|
| S4 Gary and I                 | Marlene Malcolm                                 |                 |  | ·  |
| \$4.01                        | General - the Plan<br>Change in its<br>entirety | Support         | The submitter believes that Waitara needs new housing, that<br>there is a shortage of accommodation and that the proposed<br>development would be great for Waitara.   | That the proposed private plan<br>change be approved in its<br>entirety.   |
| S5 Julie Anne                 | Weston  |                 |  |  |
| 5.01                          | General - the Plan<br>Change in its<br>entirety | Support in part | <ul> <li>The submitter supports the plan change if:</li> <li>A safe turning bay is created for turning into Borthwick Street</li> <li>A speed restriction of 50 km's per hour is put in place</li> <li>A footpath is put in from the start of the subdivision into<br/>Waitara township on Raleigh Street</li> <li>If the submitter's section is also available legally to be divided<br/>into 350m<sup>2</sup> sections if required</li> <li>Footpaths are provided on Raleigh Street</li> <li>Put acoustic glass in neighbouring houses (including the<br/>submitters) to compensate for noise of earthmoving,<br/>construction extra traffic noise</li> <li>A green space is created on the proposed road frontage on<br/>Raleigh Street</li> <li>Street lighting is provided.</li> </ul> | Should the plan change be<br>approved, the requested<br>infrastructure is provided and<br>changes to the submitter's<br>property are made. |
| 5.02                          | General - the Plan<br>Change in its<br>entirety | Support in part | The submitter questions whether it is safe to have vehicles exiting onto Raleigh Street.   | The plan change should not be<br>given the go ahead before<br>sufficient services and<br>infrastructure are in place.                      |
| S6 Colin Cam                  | eron  |                 |  |  |
| 6.01                          | General - the Plan<br>Change in its<br>entirety | Support         | The submitter believes that the proposed development is exactly<br>what North Taranaki needs to increase the supply of affordable<br>housing for people trying to get on the property ladder. The<br>submitter details that the location of the proposed development<br>will boost Waitara.  | That the proposed private plan<br>change be approved in its<br>entirety.   |

Page **7** of **30** 

| Submission      | Plan Provision   | Support/ Oppose | Reasons  | Decision Requested  |

| Point<br>Number |  |                 |  |   |
| S7 Kathleen     | Weston   |                 |  |   |
| 7.01            | General - the Plan<br>Change in its<br>entirety  | Support in part | <ul> <li>The submitter wants to see the following changes made to the proposed plan change:</li> <li>The sections on Raleigh Street should be 'larger lots' as a buffer to rural neighbours</li> <li>The internal road should enter from Johnston Street and exit lower Raleigh Street</li> <li>Upgrade of Raleigh Street and Borthwick Street intersection, to include a right turning bay on Raleigh Street into Borthwick Street</li> <li>A footpath on Raleigh Street for the length of subdivision – Johnston Street to Ranfurly Street.</li> </ul> | Should the plan change be<br>approved, design changes are<br>made and requested<br>infrastructure is provided. The<br>internal road should enter and<br>exit from Johnson Street and<br>Ranfurly Street for safety. |
| S8 Iain Rober   | tson   | •               | · · ·  |   |
| 8.01            | General - the Plan<br>Change in its<br>entirety  | Support         | The submitter believes the demand for housing in North Taranaki<br>is very tight. The submitter details that Waitara is a great value<br>area and that this development will allow many people to get into<br>the housing market.  | That the proposed private plan<br>change be approved in its<br>entirety.  |
| S9 Brett and    | Anne MacDonald   |                 |  |   |
| 9.01            | Section 1.3 -<br>Vision, Table 2.2,<br>Section 17.3<br>Additional traffic,<br>Section 9.8 Traffic<br>Report, Section<br>6.3.1 and Section<br>9.7 Character of<br>area. | Oppose in part  | The submitters believe that the area should keep its rural<br>character as much as possible and agree with the larger section<br>buffer zone along rural boundaries. However, the submitters<br>query, with two landscape plans provided, one showing more<br>sections than the other, they wonder which plan will actually be<br>implemented. The submitters' preference is the plan with fewer<br>sections as these proposed sections directly adjoin the submitters'<br>sections and it would affect their current rural outlook and<br>character.    | The plan change should not be<br>given the go ahead before<br>sufficient services and<br>infrastructure are in place.   |

Page **8** of **30** 

| Submission<br>Point<br>Number | Plan Provision   | Support/ Oppose | Reasons  | Decision Requested  |
|-------------------------------|--|-----------------|--|---|
| 9.02                          | Section 1.3 -<br>Vision, Table 2.2,<br>Section 17.3<br>Additional traffic,<br>Section 9.8 Traffic<br>Report, Section<br>6.3.1 and Section<br>9.7 Character of<br>area. | Oppose in part  | The submitters detail that the ambiguity of the two plans also<br>affects the traffic effects that any new subdivision will cause to<br>Raleigh Street, Johnston Street and the SH3/ Raleigh Street<br>intersection. The traffic table provided from 2015 does not reflect<br>current traffic movements.<br>The submitters believe the proposed slip lanes into the new<br>subdivision accesses with nothing in the Johnston Street/ Raleigh<br>Street intersection will cause confusion and be a safety risk.<br>The submitter believes the statement 'not anticipated to have any<br>discernible impact on safety or performance of the road' is<br>incorrect.<br>The submitter notes that despite promises over time, by both<br>Council and Government to spend money to fix the known road<br>issues identified in the immediate area of this proposed plan,<br>there are still no concrete decisions or time frames as to exactly<br>what will be done and when.<br>The submitter details that until these changes are made and in<br>place they believe it would not be prudent to making significant<br>plan changes such as this plan change proposal, which would<br>affect not only current and any new land owners, but all road<br>users. | The plan change should not be<br>given the go ahead before<br>sufficient services and<br>infrastructure are in place. |
| 9.03                          | Section 1.3 -<br>Vision, Table 2.2,<br>Section 17.3<br>Additional traffic,<br>Section 9.8 Traffic  | Oppose in part  | The submitter is also concerned that Council has identified issues<br>in the downstream of this area with both storm water and<br>sewerage infrastructure. Further pressure should not be added to<br>what the submitter deems to be an already struggling system by<br>adding more connections.   | The plan change should not be<br>given the go ahead before<br>sufficient services and<br>infrastructure are in place. |

Page **9** of **30** 

| Submission<br>Point<br>Number | Plan Provision   | Support/ Oppose | Reasons   | Decision Requested  |
|-------------------------------|--|-----------------|---|---|
|                               | Report, Section<br>6.3.1 and Section<br>9.7 Character of<br>area.  |                 |   |   |
| 9.04                          | Section 1.3 -<br>Vision, Table 2.2,<br>Section 17.3<br>Additional traffic,<br>Section 9.8 Traffic<br>Report, Section<br>6.3.1 and Section<br>9.7 Character of<br>area. | Oppose in part  | The submitters detail that once sufficient services and<br>infrastructure are in place, this would enhance the value of the<br>area and township as a whole, and is worth getting right first, for<br>the benefit of all landowners and ratepayers. The submitter<br>believes this plan change area is one of the gateways to Waitara<br>town and done well, it would showcase the benefits of living in<br>the area.   | The plan change should not be<br>given the go ahead before<br>sufficient services and<br>infrastructure are in place. |

|-------------------------------|--|-----------------|--|---|
|                               |  |                 | <ul> <li>movement. The submitter is concerned regarding the increased traffic on a narrow secondary road.</li> <li>The effects will flow onto Raleigh Street, given the anticipated vehicle movements from Johnston Street, extra roads and housing. There is no turning bay or slip lane provision for Johnston Street.</li> <li>The submitter does not agree that there will be no discernible impact on safety or performance of the road or intersection with Raleigh Street.</li> </ul>   |   |
| 10.04                         | Section 1.3 – Vision,<br>Section 2.2 – Table<br>2, Section 1.7.3,<br>Section 9.8 – Traffic<br>ITA Report, Section<br>1.7.7, Section 6.3.1,<br>Section 9.7. | Oppose in part  | <ul> <li>The submitter has concerns regarding the potential ecological impact of the proposed development and the loss of rural character and reverse sensitivity. Their concerns include:</li> <li>That the report only mentions two native birds on the property, yet the submitter has regularly seen 12+ species of birds on their adjacent property.</li> <li>The development will have an effect on rural native character which attracts these species. Increased development could mean these species are lost</li> <li>There is no mitigation of risk of wandering dogs from the proposed subdivision on stock on Johnston Street, other than fencing on the northern end.</li> </ul> | The plan change should not be<br>given the go ahead before<br>sufficient services and<br>infrastructure are in place. |
| 10.05                         | Section 1.3 – Vision,<br>Section 2.2 – Table<br>2, Section 1.7.3,<br>Section 9.8 – Traffic<br>ITA Report, Section<br>1.7.7, Section 6.3.1,<br>Section 9.7. | Oppose in part  | The submitters believe that the land in question should remain<br>rural until all infrastructure is in place to handle the additional<br>traffic safety and service requirements.  | The plan change should not be<br>given the go ahead before<br>sufficient services and<br>infrastructure are in place. |

Page **12** of **30** 

| Submission     | Plan Provision  | Support/ Oppose | Reasons  | Decision Requested  |
|----------------|---|-----------------|--|---|
| Point          |   |                 |  |   |
| Number         |   |                 |  |   |
| S11 Ross Alist |   | T               |  |   |
| 11.01          | Section 9.7   | Oppose in part  | The submitter notes that in their experience, to date they have<br>received no complaints about agricultural related activities from<br>their urban neighbours. The submitter believes that mitigating any<br>risk of reverse sensitivity with a 1.2m high wooden fence is<br>inadequate, making reference to Figure 16.   | The submitter seeks a change to<br>the proposed fencing provisions<br>to require full (urban) legal<br>height fences be constructed.  |
| 11.02          | Sections 1.7.3,<br>section 3.6, section<br>9.6, section 9.8 and<br>Figure 10. | Oppose in part  | The submitter believes that the effects of additional traffic on<br>Johnston Street has not been given enough consideration. No<br>mention is made of other vehicle use i.e. daily milk tanker<br>collection, heavy agricultural machinery, etc as they interact with<br>urban vehicles on a narrow road. Concerns are also raised<br>regarding road-edge letterboxes and damage to berms. | The submitter seeks a<br>requirement for Raleigh Street<br>to be widened to allow for safe<br>use by different vehicles at night<br>and the removal of all<br>letterboxes at the road edge.                                   |
| S12 Powerco    | Limited   |                 |  |   |
| 12.01          | General - the Plan<br>Change in its<br>entirety                               | Neutral         | The submitter seeks to ensure that Council and applicant are<br>aware of Powerco's existing assets in the area and the future<br>supply of electricity and gas to the proposed lots. Appendix A and<br>B of their submission details Powerco's existing gas and electrical<br>assets.  | <ul> <li>The submitter has existing gas<br/>and electricity assets within the<br/>area and seeks to ensure that:</li> <li>They are able to continue to<br/>operate, maintain, upgrade<br/>and access these assets.</li> </ul> |
|                |   |                 | To ensure adequate supply to the PPC49 area, it is necessary to<br>have some forewarning and plan for any necessary new assets i.e.<br>lines, poles, gas pipes etc and the establishment of locations for<br>utility street furniture/ above-ground assets.  | • The identification of future residential growth areas shows potential future service provision.   |
|                |   |                 | Powerco can supply power to this new residential development<br>from their substations in either Bell Block or Waitara West,<br>however approximately 0.9km if overhead lines will need to be<br>upgraded.   | <ul> <li>To enable a more orderly and<br/>timely provision of electricity<br/>and gas supply, the submitter<br/>should be contacted to<br/>facilitate the provision of<br/>services in concert with</li> </ul>                |

|                               |                                 |                    | PC 49 also has implications on SH3 road users safety and accessibility, as this section of SH 3 is operating above capacity.  |  |
| 15.02                         | Plan change in its<br>entirety. | Supportive in part | NZTA detail that the daily and peak hour trip generation rates that<br>have been adopted in the applicant's ITA appear to be low. NZTA<br>note that daily trip generation of 9.0vpd/dwelling and peak hour<br>generation of 0.85vph/dwelling have been assumed. Residential<br>development of this nature would typically generate in the order<br>of 10.4vpd/dwelling and peak hour generation of 1.2vph/dwelling.<br>NZTA detail that the assessment notes that a significant<br>proportion of trips during peak hours would be to and from New<br>Plymouth via the SH3 intersection. However, the assessment does<br>not provide detail on existing constraints in terms of level of<br>service, or an assessment of how this would be exacerbated by<br>development in the structure plan area.<br>NZTA note that the applicant's ITA identifies that there are<br>existing safety shortcomings at the SH3/Raleigh Street<br>intersection through crash analysis. However, the assessment<br>does not outline the extent to which these effects would be<br>exacerbated by the development, nor what mitigation measures<br>required to address this.<br>NZTA furthers that the ITA notes that the planned State Highway<br>changes will significantly improve both the safety and efficiency of<br>the connection points for local traffic onto the key SH3 route. | <ul> <li>NZTA seek that Proposed PC 49<br/>be approved subject to the<br/>following amendments:</li> <li>Further justification being<br/>provided for the use of<br/>lower daily trip generation<br/>rates.</li> <li>Provision of detail on<br/>existing constraints in terms<br/>of level of service, or an<br/>assessment of how this<br/>would be exacerbated by<br/>development in the<br/>structure plan area.</li> <li>The provision of a more<br/>detailed assessment of the<br/>effects of the development<br/>on the intersection of<br/>SH3/Raleigh Street and the<br/>intersection of SH3/Tate<br/>Road. This assessment<br/>should include analysis of<br/>safety effects as well as<br/>level of service.</li> <li>The use of SIDRA analysis to<br/>determine pre and post<br/>development level of<br/>service.</li> </ul> |

Page **21** of **30** 

| Submission<br>Point<br>Number | Plan Provision                  | Support/ Oppose    | Reasons   | Decision Requested  |
|-------------------------------|---------------------------------|--------------------|---|---|
|                               |                                 |                    |   | <ul> <li>An assessment outlining the extent to which the effects of the safety shortcomings at the SH3/Raleigh Street intersection would be exacerbated by the development, and what mitigation measures would be required to address this.</li> <li>Amended plan change provisions to include the upgrade of the SH3/ Tate Road intersection as mitigation.</li> </ul> |
| 15.03                         | Plan change in its entirety.    | Supportive in part | NZTA detail that the Transport Agency broadly supports the<br>Structure Plan as a mechanism for planned urban growth through<br>a private plan change process. This process provides a good<br>opportunity for effective integration of proposed land use with<br>the surrounding services and infrastructure, including the State<br>Highway network.  | NZTA seek that Proposed PC 49<br>be approved subject to pre-<br>mentioned amendments.   |
| 15.04                         | Plan change in its<br>entirety. | Supportive in part | NZTA acknowledges and supports the inclusion of policies which<br>aim to ensure that all new lots have safe and adequate vehicle<br>access from the roading network and require an interconnected<br>transport network that provides a variety of routes for walking,<br>cycling, passenger transport and motor vehicles. These policies<br>align with and support the safe system and multi modal priorities<br>of the GPS, as elaborated on in section 4.1 of this submission.<br>NZTA also welcomes the inclusion of provisions which recognise<br>and provide for the effects of residential growth on existing | NZTA seek that Proposed PC 49<br>be approved subject to pre-<br>mentioned amendments.   |

Page **22** of **30** 

| Submission<br>Point<br>Number | Plan Provision                  | Support/ Oppose    | Reasons  | Decision Requested  |
|-------------------------------|---------------------------------|--------------------|--|---|
|                               |                                 |                    | networks as a result of increased traffic. The Transport Agency is supportive of the proposed draft objectives and policies as outlined in 'Appendix C Proposed Additions to NPDP'.  |   |
| 15.06                         | Plan change in its<br>entirety. | Supportive in part | NZTA note that the proposed residential zoning is not directly<br>adjacent to SH3. Therefore, noise sensitive activities such as<br>dwellings, which can suffer reverse sensitivity effects from State<br>Highways, would not incur such effects as a result of the proposed<br>rezoning.  | NZTA seek that Proposed PC 49<br>be approved subject to pre-<br>mentioned amendments.   |
| 15.07                         | Plan change in its<br>entirety. | Supportive in part | NZTA does consider there to be challenges affecting the proposed<br>land use change with respect to road user safety and accessibility.<br>Specifically, it is considered that the SH3/Raleigh Street<br>intersection is operating above capacity and is subject to safety<br>risks.<br>NZTA detail that they are in the detailed business case process for<br>the delivery of an upgrade to the intersection of SH3/Tate Road<br>intersection in the form of a roundabout, which would improve<br>both capacity and safety. Under this scenario, the SH3/Raleigh<br>Street intersection would be closed. However, NZTA note that<br>they are not yet in a position to upgrade the intersection and any<br>upgrade would not likely occur until 2022 or later. It is important<br>to note that although this upgrade is likely, delivery cannot be<br>guaranteed with certainty, which is a risk that the applicant and<br>Council will need to take into account.<br>NZTA considers that the additional traffic generation associated<br>with the proposed land use change would exacerbate safety and<br>efficiency issues on the State Highway network. | <ul> <li>NZTA seek that Proposed PC 49<br/>be approved subject to:</li> <li>The pre-mentioned<br/>amendments and further<br/>information provision<br/>sought, to enable NZTA to<br/>ascertain the full extent of<br/>these capacity and safety<br/>constraints.</li> <li>Amending the plan change<br/>provisions to address the<br/>increased safety and<br/>efficiency effects on the<br/>State Highway network<br/>from the development.</li> <li>The development within the<br/>structure plan area not<br/>proceeding until adequate<br/>infrastructure is in place at<br/>the Tate Road/ SH3<br/>intersection. Any application</li> </ul> |
