Re Private Plan change

- > This is my response to the council and commissioners.
- >
- > I am wondering why is the applicant is trying to come back to the commissioners with new information now? They have had more time than any of us to prepare our submissions.
- >
- > Why is the applicant trying to extend the timeline to suit their purposes?
- >
- > All other submitters turned up prepared and respectful of the commissioners and the hearing process and all parties had their opportunity to make their case.
  
- > The applicant should not be allowed extended time
