Submission No: 1601

Judy Eva

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

This is the only solution.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

The zoo has outgrown its use. The animals need to be placed in larger more updated zoos such as Auckland.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services

Housing for the elderly No

Traffic management

What else?

We cannot afford to lose housing for the elderly as what was suggested a few years ago, maybe 9 years ago. It needs to stay in the hands of the Council or it will end up in the same mess as social housing which was known as state housing and now has fallen through the cracks. Social housing is not suitable for elderly people.

Cairo Wilson

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

We should fund Zeal so they can be open more hours and do more events, Zeal helps a lot of youth and help keep them on the right track in life.

Julie Bond

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Makes sense to increase in small amounts over time to build up a buffer for future.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Make sense but - watch how you spend funds from PIF don't spend all - save some.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

This really is part of your disaster plan not separate. Why add buses into this area surely that is a separate consideration.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 3 - Put increasing amounts of \$500,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$5m would be added.

Comments

If you can manage to put \$500,000 away you will have a better amount to be in reserve - 'you may need it!' Don't do walkway to Bell Block and save some money.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

We agreed on this keep going - the finished time may take longer but it is a great plan.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Comments

I have not read what Option 3 means so can't comment.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Keep going with this plan it is necessary.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

Yes investigate (cheaply) but don't go ahead if all then cost too much to run.

What else?

What the region really needs is more housing across the board. Easier streamlined building consent process. so we can increase housing stock. Dog warden to tackle the roaming dog problem in Waitara and on the beaches were there are leash policy's in place that are ignored. Greater police presence to tackle gang crime and late night boy racers. Not charging \$3 to park for people that have to park in town to work it shouldn't cost \$120 a week for the privilege of parking with in twenty mins walk from work not every one can get into town hours early for the free parking. An adult only time slot at local pools once a week Over sized Utes shouldn't be allowed to take up multiple car parking spaces. get rid of the single space car parks on powderham street between the warehouse, the TSB car park and KFC they are a danger to cars leaving those car parks as when in use cars parked there obstruct the view of the oncoming traffic.

See comments at the end of this document with regard to the Tongaporutu Transfer Station

What else?

TONGAPORUTU TRANSFER STATION

I am a resident of Tongaporutu, in touch with most of the other residents. Here are our requests:

A) We wish to retain the transfer station on Hutuwai rd.

B) We do not want a large compacting machine on the corner of SH3 and Clifton rd. Here is our solution:

1. Remove the iron gate at the Hutuwai rd transfer station.
2. Do away with "3 hours on a Sunday" only.
3. Have the transfer station open all hours, unmanned, making a saving for the council.
4. Add a recycling unit beside the existing Jack Trash adjacent to the bridge.

We as a community wish to be responsible for our own transfer station. Good signage. Respectful users.

We already have plans for the "Tongaporutu Gardens Working Group" to be responsible for mulching all green waste from the village. And we already have a user pays Jack Trash and a bottle drop in the gravel pit beside the Tongaporutu bridge. We feel that the compacting unit is an urban solution not fitting in a remote rural area. We know what happens at Jack Trash. Travellers dump their rubbish beside the unit. (Many lose their \$4 because Jack Trash only works sporadically). The same will apply to a compacting unit. If you remove the Hutuwai transfer station, you will encourage fly tipping, plastic fires and farm dumping. This is all completely unnecessary if you enable the community to manage its own transfer station. All we require is for the council to empty the skips once full.

Why not make Tongaporutu a pilot scheme for all New Zealand rural transfer stations? Operate on a TRUST model instead of a CONTROL model.

We would all rather work WITH the council in achieving this goal rather than AGAINST a council insisting on high fees, high fences, iron gates and restricted hours. Are you aware that in the previous 18 months, the Hutuwai Transfer Station custodian has only had 14 paying clients in to dump their rubbish? This alone should tell you that what is operating now is not working. And neither will a user pays compacting machine in full view of SH3 at the entrance to the beautiful "Three Sisters". Please retain our transfer station and hand over its management to the local community.

I am happy to facilitate a meeting for councillors to discuss this innovation with the community.

Scott Garcia

Wish to speak to the Council: Yes

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 3 - Put increasing amounts of \$500,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 4 - Accelerate the programme even further with an additional \$300,000 each year.

Comments

Climate crisis. This is insufficient

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 3 - Put increasing amounts of \$500,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$5m would be added.

Comments

Use to tackle climate crisis

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Never see a full bus at any time of day

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Don't waste money on nice to have. Learn to work to a budget line households have to to. Cut costs would be a good saving.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Waste of money

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

No you can't manage money currently in your control. Wasteful spending has been occurring for years

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

We can't afford to do this at present what happens to the money for the hiring of this Hub?

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

We shouldn't be caging animals in zoos. In this day and age cruelty

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

User pay. Who ever uses can pay for this not rate payers

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services Yes

Housing for the elderly Yes

Traffic management No

What else?

Stop wasting our money rates are becoming so hard to pay. There are to many salaries to pay then you also employ contractors to do same job,

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 3 - Put increasing amounts of \$500,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 -Delay the required work and accept the risks of non compliance and building closure.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Roland Swift

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Comments

Support option 2 as we have no choice

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Comments

Option 2, need to keep rates rises affordable

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

I would like to see something between option 1 and 2. We can not afford to fund nice to haves at the moment. A spent of \$240,000 a year going forward is more than we should be spending. We should spend some money on education.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

We can not afford nice to haves like this, fix the infrastructure then come back and ask for things like this.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Disappointing this has gone no where. We need better facilities for public sports, especially another hockey turf.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

I think there is another option which is to get rid of the animals that require expensive facility upgrades and just have the other animals. It is designed for small children who don't care if they are looking at a rabbit or a monkey. Need an option between 1 and 2.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 -Delay the required work and accept the risks of non compliance and building closure.

Comments

We can afford projects like this at the moment. The benefits to the rates payers of New Plymouth are marginal and we should not fund it. We faced a similar decision over the cricket nets which were installed at a large cost and are rarely used.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

When I add up the rates increases for the preferred options they total 7.9% over 10 years and yet I am looking at a rates increase of 18% this year alone if I read your graph correctly (because I live in a small house on a small holding with a high land value). Future rates increases will be compounded on this years rates increase so the impact of the proposed changes will be lost in the noise of the already massive rates increase. Rates increases like these are just not sustainable. The document makes all the right noises about cost of living and affordability and then raises my rates by 18%. I would urge the council to continue to look at ways of reducing or deferring costs to keep rates rises to single digits for all rate payers.

Tora Janeane

Wish to speak to the Council: Yes

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Thai Sha Na

Wish to speak to the Council: Yes

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 3 - Put increasing amounts of \$500,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services Yes

Housing for the elderly Yes

Traffic management Yes

What else?

Not have

Jessica Chapman

Wish to speak to the Council: Yes

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Ensure that transport assets are in good condition to maintain the required quality of service. Address asset maintenance and repair in a timely manner to reduce the risk of breakdowns and unplanned downtime. Extend the service life of transportation assets and better protect previous investments.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

The ability to have sufficient funds to deal with unexpected storm-related losses and reduce financial risk. Balancing considerations, while having an impact on the interest rate of the permanent investment fund, are even more important in the face of unpredictable disasters such as storms to ensure that there is sufficient capital in reserve.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Preferred Option 3 May be a more comprehensive and positive option for the following reasons: All things considered: Preserving important parts of the existing program while providing additional funding for other initiatives. Diversification initiatives: Can promote more sustainable development projects, not just existing initiatives. Trials of high-frequency bus services: to help explore the possibility of improving public transport and reducing carbon emissions. Relative balance: While increasing investment, it is not overly aggressive and maintains a certain degree of financial sustainability.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Gradually accumulate funds to reduce short-term financial pressure.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Meeting MPI standards helps to enhance the reputation and image of zoos. To promote animal protection and the maintenance of ecological balance.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

The new and improved location allows for a more modern and event-friendly pavilion. It is conducive to attracting more large-scale events and activities, increasing the vitality of the community and economic benefits.

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

no

Jeremy D'Ath

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

This is based on incorrect information. We do not need to double the spend to maintain, the contractors used have been doing substandard work, we already pay enough

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Rates are too high, Deal with this as it arises, I have seen limited clean up by council in any rate

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

This could be done by community, the community work forces have not been utilized well at all by council

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

We have enough already, no more chasing fane projects, 10 years time in a different financial climate go for gold

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Not needed at all. We have so many spots facilities that are community owned and operated, as well as council owned that are poorly maintained, so no more new toys

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Keep it simple, the council has been too extravagant for too long and is pushing the cost of living up. Soon there will be no one here to enjoy the zoo

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Grass roots cricket is all we need, grow our children's passion by involvement but we are not a big cricket destination

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

The wealthy areas and population are driving a different agenda, many people have lost jobs and had hard times through covid and other economic challenges. Now is not the time to spend on anything flashy. The council has eroded trust for some time, with poor quality management and less bang for buck on existing assets. Stop patting yourself on the back for spending (everything new looks great when it's new) and start managing better. Every roading and water crew, every civil contractor and construction worker knows how much is being wasted and not done properly, that is where you need to focus and there has been no meaningful review for our money. We can't afford rate increases like this it's crazy. We will have to spend more on water for years to come which will make all this worse, but we have dying local industry and no new beacon of employment on the horizon

Ivan Chapple

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Leave the fund as it was designed - to subsidise rates. Now is not the time for this initiative.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Developing world class facilities will bring more people and therefore revenue to the district.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Seek additional funding to achieve option three from public / private funding models or general fund raising. The zoo is an asset to the region however will unlikely be a big draw card / revenue gathering facility.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Is it the pavilion that that means the ground is no longer suitable for top level cricket or the fact it is a small ground with short boundaries. I personally love watching the cricket there but I'd just like to be sure the pavilion is preventing the cricket being played there as opposed to the ground itself (which cannot be upgraded).

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	No
Traffic management	No

What else?

The vision is great, we just need to be sure the execution matches the idea. To many decisions have been made lately based on people's feelings rather than empirical evidence and rate payer money is being wasted as a result.

Option 1 - Do not upgrade the zoo and gradually close it down.

Comments

Zoo's are cruel, close it down and stop wasting ratepayer money.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 -Delay the required work and accept the risks of non compliance and building closure.

Comments

This is NOT important.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

It would be SO nice to see NPDC get back to what it fundamentally exists for and to STOP spending MY money on frivolous nonsense and "pet" projects.

Submission No: 1685

Sally Broadhurst

Organisation: Nine

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Comments

More communication between NPDC and Waka Kotahi to ensure things are planned more efficiently.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

The zoo is used by many people who live here. We need to think of the local people not just money brought in by tourists.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

I am concerned about what appears to be a lack of planning for parks/playgrounds/open space in the new development area of bell block, spanning from the end of Parklands Avenue to Airport Drive. An entire development has so far been built without any consideration for this and I am not readily seeing provisions for this in the future plan. I would expect / hope to see provisions included in future development.

Additionally, it appears that although Bell Block has a similar population to Waitara, and growing quickly, no provisions have been made for a supermarket to be built. Currently access to a supermarket is either in the Valley or a small SuperValue in Bell Block centre. Provisions are clearly underestimated if it is expected that SuperValue is able to provide for an increasing population. A local supermarket will reduce congestion on the highway, as well as reducing petrol costs for Bell Block inhabitants.

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	Yes

What else?

New Plymouth's roading infrastructure is bursting at the seams due to the current archaic design. The region as a whole needs not only far better roading, but also far greater roading infrastructure to accommodate the larger population. This needs to come with a lot of fore-sight to plan to make this regions roading suitable for generations to come. We need more lanes, better intersections, basically someone with a brain & common sense to come in & rearrange everything so it works better. A classic example is the Waiwhakaiho bridge that was upgraded a decade ago. 2 lanes either way is a joke, it should have been 3 lanes either way. The Bell Block bypass is another. Look at how it works getting off to Bell Block, cars backed up for k's regularly, incredibly poor flow, accidents being caused. Again, poorly planed & what's been done is not even close to suitable. Whoever is in charge needs to go. This kind of thing is important to REAL people, 90% of the region, the majority of people. Not the 10% the council currently cater too, the woke dreamers that want cars off the road. It has become blatantly obvious now, & the sentiments have been all over the worldwide media that the electric car scam was nothing more than that. Toyota, Nissan & other manufacturers have issued official press releases explaining they will no longer be investing in electric cars. It's time to get off that band wagon, throw out the anti car & anti fossil fuel agenda you have & get real. Get over the fake climate emergency garbage, & start making changes for the real people that live in this region. Not the 10% that live in a fantasy world

Luke Galley

Wish to speak to the Council: Yes

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Many in the community of all ages are really struggling with the significant rates increase that we have recently received. While I understand the need here re transportation assets - the cost of living is really impacting many families and they are finding it really difficult.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Many families are really struggling with the cost of living, we have just had another significant rates increase, please do not take away this subsidy

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	No

What else?

Now more than ever there is such an ever-increasing need for a youth centre in the CBD. Currently Zeal is attended by over 350 young people per week on average and that does not include their reach into the community and schools. If this is not funded, then the impact for these young people (and future generations) would be huge in such a detrimental way - this would also put an enormous strain on other services (Orange Tamariki, Tui Ora etc who are already incredibly stretched). For many young people, Zeal is the only place where they are fed, clothed and receive the practical support that they need. Please reconsider funding this essential service in the LTP - \$65k per year is a drop in the ocean in relation to the overall budget here, but the impact/return on the investment enormous.

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	No
Traffic management	Yes

Ivan Henning

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

Scrap the entire program make these staff redundant put all costs saved into the maintaining roads and the drainage system.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Scrap the project until roads and drainage system is up to a more acceptable level

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 4 -Delay the required work and accept the risks of non compliance and building closure.

Comments

420k to demolish a building do you guys use tendering systems/companys or do you use same people/contractors all the time?

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

Our feedback just appears to fall on deaf ears I'm still amazed that dogs are still banned from the CBD absolutely aburded you allow inconsiderate drunken youth to wander the CBD at night spewing and abusing. but oh no average responsible dog owner can't walk down Devon street on a Saturday morning to grab a coffee total joke.

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

we need good transportation. I want New Plymouth to be a place that has not just cars but bikes, buses, and light rail.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

we need to protect the climate and work hard to do so. I think that having more money to do this will help.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

I think it's a waste of money that could be better spent elsewhere.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

I think the sport hub money should go to upgrading the zoo

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

it should be repaired but it should not be improved. its fine the way it is.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	Yes

What else?

I hope New Plymouth has more focus on better bike lanes and improving rail it would be nice to have light rail in the new Plymouth town centre to help reduce the number of cars.

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

What else?

Thank you for the chance to complete this survey.

First may I say while I have been through the consultation document , I do find it too detailed, a summary would have been more user friendly. As you can see I have marked the preferred option where possible. I do respect the huge amount of work put in by officers and councilors and appreciate the job you have done.

However I believe we should look at the plan from a different angle, that of the income. NPDC has access to a range of well qualified staff and councilors and they should be asked to come up with a plan to increase the income available. Should this not be acceptable, we should engage a team of entrepreneurial management consultants to raise the necessary income. I do realise 'consultant' is a dirty word these days but these people would be paid by a percentage of the funds they raise. No money, no payment. Like many businesses and individuals, NPDC is asset rich but cash poor, and there must be ways to generate extra income, and I believe the right people will find them..

What else?

Dog control - there are constantly dogs off leash through controlled areas. It is not enough to just put in place restrictions, you need to put more signs up to tell people and then enforce the rules.

Sport facilities to meet the needs of our growing participation is a must for our community. We spent many years travelling to areas like Napier with our sport representative kids to participate in tournaments that Taranaki couldn't support. This is a huge cost to parents. Wouldn't it be great to be able to host top level Rep tournaments in our area.

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Denise Rowland

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Having witnessed first hand the inability of the current roading maintenance contractors suggest that a vastly improved oversight by knowledgeable persons ensuring roading is done correctly the first time rather than ensuring a guaranteed maintenance requirement right from day one of the maintenance being completed. Resealing stretches of road that do not require it just because the contract states a fixed period is unjustifiable. Lets ensure for money before just accepting that more money needs to be thrown at transportation assets.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Comments

The bus trial concept is lacking in detail - no one can make a comment let alone a decision on this without further information.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Small land holdings rates have been disproportionately increased and are being increased at an accelerated rate of other rateable properties. Given most NPDC services are not of great use nor availability [eg bus services] to most small land holdings residents both the increases can not be justified let alone reducing the amount of rates offset provided via the PIF

Tūparikino Active Community Hub

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

If NPDC is going to spend this much to maintain our transportation assets I would like to see another contractor brought in to do the work, downer time and time again has proven that they can fix up a PATCH of road and then 2 days later the road will blow out again. It is so obvious travelling out of Taranaki and back in the difference in the road quality. I'm sure people will agree they don't mind when road works are happening and roads are closed but fix them up properly so the road doesn't have to be closed again for work in 6 months time

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

I don't even know what the existing program is which says a lot about how you advertise these programs but I also personal don't care about climate change

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Stop changing your mind about projects, if you start it get it finished ... honestly the new proposal sounds the same as the last one

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Make Brooklands zoo a gold coin donation entry, it's an incredible place for families and visitors to go to, when I moved here I thought and still think the park is very special. I'd love to take my future children here and I wouldn't mind giving a donation each time I visited

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

I would love to see some sort of plan around the design and layout of New Plymouth waterfront. The walkway is such a stunning attraction to the region. However, I feel that the front beach part could bloom even further by adding in beachfront restaurants, shops, and areas for people to hang out. It just seems poorly designed that right next to our beautiful coastline. We have a train track that is hardly used and no places to look directly out onto the water but instead there shops like Bunnings warehouse that sit right at the front. I truly believe new Plymouth is such a beautiful city which is why I choose to live here, but I feel like it's missing the waterfront culture that you see in other towns, such as Hokitika, Napier and Whitianga

Kris Armstrong

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

I think in this current economic situation that NZ is in it could be very foolish to be spending, 100% agree that we need protect our assets and keep up with basic maintenance. I look at it a little like my personal home ownership.... I need to keep up with clearing my gutters, painting , cleaning and the odd new light, stove, repair so I believe that we should be looking at spending BUT only when finances improve should we look to investing into our existing levels of service.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 1 - Don't put any additional amount aside.

Comments

Again... it is quite simple there is NOT the money for people JUST in case, not right now, in a perfect world option 3 - in todays world option 1 and it will ensure this council gets a vote next election! People ARE struggling so we as a community need to respect that. I would be interested to know how much is in this reserve?

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

I feel a bit like a cracked record.... I am sure you must be very aware of the financial situation of the average Jo Blog and again I would love to say Option 4 but it is irresponsible

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

So what was the perpetual Investment Fund set up for? How much interest is generated each year from this fund? And again is right now the right time for NPDC to be increasing amounts on anything? I believe that this needs more thought and discussion coz once that is gone it is gone! But you have made that sound very interesting and

Tūparikino Active Community Hub

Which option do you support for The Hub?

Comments

Again.... I do not believe that we have the funds to do this and that and everything in between so maybe our focus should be (and will be remembered for) repairs and maintenance not to start anything - the money that is budgeted could be put to very good use and the NPDC would be remembered for this

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

My personal view is that Zoo's aren't the most PC and this will continue to be the case (think back 20 years when the circus came to town, not very cool now to look up the animals!) an open air petting park where families can picnic and play would be more cost effective and looking to the future more sustainable

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Comments

Again I would be interested in Cricket NZ commenting.... how many top level domestic games have been held here in the last 2 years, what is the cost to NPDC to hold these events and what is the revenue in from these events. Sensible business practice would be to cater to our local community first (this could be by income of course) as the ratepayers are of course NPDC concern NOT top level domestic cricket unless they are your client and paying for your services

Council Controlled Organisations

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Would rather see this funding goes towards climate change and disaster recovery than pollution inducing roads.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Unfortunately I think you are under budgeting this given the climate crisis. Invest more if the PIF grows faster than expected. Redirect funding from other areas

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 4 - Accelerate the programme even further with an additional \$300,000 each year.

Comments

Much needed but still insufficient to address climate crisis. Look at Gabriel last year and ask what if that was us? Do more, do better. Redirect the millions upon millions proposed elsewhere to the climate emergency.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Would rather see this funding goes towards climate change and disaster recovery than nice to haves.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

Would rather see this funding goes towards climate change and disaster recovery than nice to haves.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Would rather see the \$2.3m difference between 3 and 2 go towards climate change and disaster recovery than nice to haves. I accept keeping the zoo going and looking after animal welfare, but don't need the frilly bits.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

Would rather see this funding goes towards climate change and disaster recovery than nice to haves.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	No

What else?

Prioritise funding for climate change and disaster preparation. Once we are at net zero and sufficiently resilient THEN invest in nice to haves and pollution inducing roads. Get your priorities right

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 4 - Accelerate the programme even further with an additional \$300,000 each year.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 1 (preferred option) - Replace the pavilion in a new and improved location at a cost of \$16.3m.

Comments

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

Overall you have done a good job at bringing in the budget lower than other councils in NZ. but I think you could have invested a big more in some places and saved in others. Make sure investment is fit for purpose, don't under cook it to save a few bucks now and then need to spend more later.

Sara Hamilton

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 3 (preferred option) - Increase option 2 by \$300,000 each year for other initiatives and \$100,000 for a three year high frequency bus service trial.

Comments

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

This is the health & welfare of all our young people, they are our future, this project will bring in income. This should be a priority. I was there fundraising for the TSB stadium and now instead of a sports facility it has become a commercial hub. We need to encourage families to come and stay in Taranaki, keep them active and involved, this Hub is a necessity not a luxury. Get on and do it!!

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 2 - Undertake necessary upgrades to meet compliance with MPI standards at a cost of \$5.7m over 10 years.

Comments

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

Cricket is already well catered for here and with the new Hub grounds. Teams will still want to play at the Park regardless of flash changing rooms. The idea of building new clubhouse with lots of glass on a short outfield is asking for trouble

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	Yes

What else?

If delivery systems within the Council were streamlined effective and efficient you wouldn't need to ask the last question.

Don Key

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 3 (preferred option) - Boost the amount we put aside each year to \$500,000 with an additional top up increase from funds released from our Perpetual Investment Fund (which would otherwise reduce your rates) of \$100,000 each year to a maximum of \$1m in year 10.

Comments

This still seems insufficient.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 4 - Accelerate the programme even further with an additional \$300,000 each year.

Comments

Increase walking and cycling alongside bus service. Follow up the coastal walkway to Waitara with an off-road route to Inglewood, and then extend coastal walkway to Oakura. This creates a safe option around the main towns for zero carbon transport.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 2 (preferred option) - Put increasing amounts of \$250,000 each year in to the reserve of the release from our Perpetual Investment Fund (used to subsidise rates) until year 10, when \$2.5m would be added.

Comments

Need to see what it would be used for. I think the emphasis should be on sustainability projects

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 3 - Increase the budget to \$50m over the 10 years to add more facilities.

Comments

Hockey is also high needs for another turf. Presumably that requires option 3 so have selected that one

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

Minimal cost difference to doing it properly. Although I am still not sure it is right location given the ridiculous length it is closed each year for womad. Maybe you could add another entrance so it can be open more while womad is being set up?

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 3 - Demolish the existing pavilion and do not replace (estimated cost \$420,000).

Comments

Would rather see this invested elsewhere to improve Pukekura Park for all users and the environment (weed and pest control)

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

Invest more in the environment. Stop wastewater pollution, increase weed and pest control, remove non-native trees from parks, invest in cycling and walkways, remove litter, introduce soft plastic recycling, plant more trees etc etc etc.

Build it alongside the Multi-hub proposed.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	Yes
Traffic management	Yes

What else?

Please look at sustainability more closely and consider spending money on a fully operational composting site that takes all bio-materials. It is so very frustrating when food vendors do right by purchasing biodegradable takeaway containers and the council will not accept these because they are lined with wax or have too much colour!!! Get rid of the single-use plastics that are polluting our landscape and oceans by investigating and implementing change ie invest in hemp and flax growing facilities that produce products that can be turned into packaging, clothing etc. If the council wants to eventually be zero waste, more needs to be down right now and not leaving it for the next generation. As I stated before, our generation born in the 50s and 60s created the immense problems we are now experiencing with our waste disposal it is up to us to fix it.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

1. Crime prevention needs to be addressed - more security cameras especially in CBD and more liquor ban areas.
2. Homelessness needs to be better addressed.
3. Pukekura Park needs to be better maintained. E.g. The trees are getting quite overgrown in places. Consultation with the Festival of Lights photographer should be done a few months before the festival to see things through the eyes of a photographer and get their feedback on whether there are any obvious branches or trees etc that need trimming to help make sure event photos will show the park in a good light.
4. Astro tourism should be part of our long term plan. Taranaki is one of the best places in the world for dark skies. At the very least our national park should be a dark sky reserve. This wouldn't take that much extra work - just would have to get DOC and local iwi on board. Light pollution ordinances for Taranaki would need to be strengthened and eventually the whole of Taranaki could become a dark sky region and we could market ourselves to tourists as an astro tourism hotspot. Ties in with goals for Environmental Excellence and Prosperity. Also ties in with Matariki.

Kyle Beggs

Organisation: New Plymouth Mountain Bikers

Wish to speak to the Council: Yes

What else?

We propose that NPDC contributes \$20,000 annually to the maintenance budget of the Mangamahoe Mountain Bike Park through the 10-year plan.

The New Plymouth Mountain Bikers (NPMB) is an incorporated society and registered charity that currently has sole responsibility for the development and upkeep costs of the Mangamahoe Mountain Bike Park (MMBP). The MMBP provides a broad range of benefits to the New Plymouth community including;

1. A major regional recreation facility. This is reflected in the fact that we have over 800 paid members and that the NPDC trail counter at the main entrance has recorded an average of 239 cycle users/day.
2. The MMBP was recently ranked the 8th in the country for the attraction of out-of-province visitor spending in an independent economic report. This likely represents the creation of several million dollars of additional regional economic activity. We currently budget \$20,000 annually to maintain the MMBP with funding sourced through members fees, sponsorship and events revenue. However we strongly believe we need to at least double this spend to keep the park as both fit for purpose and safe to use.

We note with interest the following points.

1. NPDC are actively considering investing very large amounts of CAPEX (and hence ongoing OPEX) in other recreational and sporting facilities in the current 10-year plan. Our financial needs in comparison are insignificant.
2. NPDC currently chooses not to charge the full cost of sport ground maintenance to user groups as in recognises "the benefit to the community". Our user group however does not have an equitable recognition.
3. Other regional authorities (Rotorua, Palmerston North, Taupo, Wellington, Nelson-Tasman, Christchurch, Dunedin, Queenstown Lakes and likely more) are already contributing far higher investment amounts in their regional mountain biking facilities. This is no doubt because they recognize the excellent return on their investment through visitor spending.
4. A significant proportion of MMBP users are not financial members of the NPMB. However we do not believe that a user-pays model is either practicable or desirable. Support through NPDC funding is the obvious solution. We offer our thanks to the elected members for considering our request and wish to have 10 minutes to speak to our submission at an evening hearing so that our members can more easily attend.

Peter Huitson

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Infrastructure maintenance and replacement should be the prime demand on rates.

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).

Comments

We pay enough rates now - nice to haves should be shelved for now and the \$100K should be offset against rates.

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 1 - Do not continue the existing programme.

Comments

The government should be looking after climate change initiatives and funding the same - it should not be a rate payers responsibility.

Big Call 3: Paying it forward

Establishing a Sustainable Lifestyle Capital Reserve

Should we establish a Lifestyle Capital Reserve to help fund future projects?

Option 1 - Do not establish the reserve.

Comments

The money from the PIF would be far better used subsidizing rates which are already a struggle to pay for many.

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 1 - Delay the project beyond this Long-Term Plan.

Comments

The Community Hub is a nice-to-have, not a necessity. We have adequate sports grounds around the province without having to create a new, central one. Rates need to be concentrated on infrastructure repair and replacement. If the various sporting codes want a hub, they should pay for it.

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 3 (preferred option) - Implement the first three phases of the vision for the zoo over 10 years at a cost of \$9m.

Comments

The zoo is one of the few places children can be taken for a visit at no cost. It provides an invaluable opportunity for children to interact with animals and bird life that they might otherwise not get.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Comments

The cricket pavilion is specifically for the use of cricketers so the council should be providing minimal funding. If New Plymouth cricket wants a flash, new pavilion, they should pay for it. For the one or two games we get a year, the cost of a new pavilion is not justified. Replacement of the pavilion is a huge cost to benefit a few. A nice-to-have but not at this time when the rises in rates is becoming a struggle for a lot of people on low or fixed incomes.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	No
Traffic management	No

What else?

Rates have risen astronomically over recent years coupled with the regional rates rise to pay for the stadium repair (something which was a gross overspend). Many of our citizens are on fixed or low incomes and genuinely struggle to pay their rates. Insurance premiums have recently increased by a third and power prices rises are being implemented this year. The council has a responsibility to consider the ability of its rate payers to meet the cost of their rates so increases need to be kept to the bare minimum. Rates never seem to go down, even though many projects that they fund are completed. It is adding insult to injury, proposing double digit increases or any increase greater than the rate of inflation. If it is good enough for the government of the day to cut back on expenditure, the same should apply to local government.

Should we investigate alternative delivery options related to the following services?

Water services	Yes
Housing for the elderly	No
Traffic management	No

What else?

I strongly support keeping the zoo open. I have a young family and regularly go there. I support rate raises to pay for the long term plans in the range of 10-20%. A plan must be made and implemented to fund future projects because at some point rate increases to pay for these projects would become impracticable.

Council Controlled Organisations

Should we investigate alternative delivery options related to the following services?

Water services	No
Housing for the elderly	Yes
Traffic management	No

What else?

Please do not waste any money on sporting facilities. We have plenty of outdoor spaces to use and established venues.

Greer Garner

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 2 (preferred option) - Double the amount we spend to \$315m over 10 years, which will maintain our transportation assets at existing levels of service.

Comments

Big Call 2: Sustainability – Climate Action Framework

What should be our approach to sustainability, including climate?

Option 2 - Continue the existing programme with a budget of \$240,000 in year 1, \$640,000 per annum in year 2 onwards and continue Planting our Place at \$200,000 each year.

Comments

Big Call 3: Paying it forward

Tūparikino Active Community Hub

Which option do you support for The Hub?

Option 2 (preferred option) - Proceed with the project using funding already budgeted (\$35m) in the last Long-Term Plan.

Comments

Brooklands Zoo

Which option do you support for the Brooklands Zoo?

Option 4 - Implement the full vision for the zoo over 10 years at a cost of \$14.4m.

Comments

The zoo is really important for people with young families. There is limited things to do with young children and should be made a priority! It is really well used!! Perhaps a gold coin donation to enter to help fund the changes.

Bellringer Pavilion

Which option do you support for the Bellringer Pavilion?

Option 2 - Repair the existing pavilion at a cost of \$1m to cater for local community use but would not be suitable for top level domestic cricket.

Wish to speak to the Council: No

Big Call 1: Future proofing our district

Investing more in looking after our existing infrastructure

How should we address the increasing costs of looking after our transportation assets over the next 10 years?

Option 1 - Don't spend any more. This will save rates in the short term, but the state of our transportation assets will continue to decline, resulting in greater long-term cost implication.

Comments

Why double it? Can you increase it slightly?

Boosting the Disaster Recovery Reserve

How should we approach the costs of unexpected storm related damage?

Option 2 - Boost the amount we put aside each year to \$500,000 (from \$200,000).
