3c. Key issues for discussion at the meeting (from the applicant's perspective): Additional Content of the American Council (NPDC) staff about this proposal? Please give details: Will your activity be classed as a temporary event?	3.	Proposed details - continued
Will your activity be classed as a temporary event? What is a temporary event? An event which is held outdoors, but not on a road. An event held primarily for entertainment. An event which does not involve the construction of permanent buildings. An event held primarily for entertainment. An event which does not involve the construction of permanent buildings. An event held for three days or less. Even if your event doesn't meet these criteria, it may trigger other District Plan rules and a resource consent may still be required. If you require a temporary event resource consent then an application fee is required to be paid at the time the application is lodged. Please check the relevant District Plan rules relating to the environment area in which you are proposing to hold your event. 4. Submitting your application Options for submitting your application Scan and email your completed form to: casemanagement@npdc.govt.nz In person: bring your completed form fand any supporting documents) into the Civic Centre in Liardet Street or the Inglewood, Waltara or Bell Block library and service centres. 5. Terms and conditions of a case management meeting Meeting discussion The case management meeting is confidential, therefore statements made at the meeting cannot be used outside of that meeting. The information available at the meeting is limited to the information available at that point in time, therefore decisions made at the meeting are not binding. Applications that are required for the project will be assessed against the relevant legislation, when submitted to NPDC. Engage the help of professionals You may need help from various professionals to meet NPDC requirements. These commonly include: A Rothlect/designer; prepares and develope options for the business which also meet planning, building and infrastructure requirements. Building plans will need to be drawn to scale and it would be an advantage if your designer is familiar and competent with Building Act Prequirements. Engineer: checks that buil		3c.
