1. Following release of the Notice of Hearing for this matter, the applicant has advised that its acoustic expert is in another hearing on 14 May. The nature of the matters at issue mean that it is impractical to proceed without him.
2. Accordingly, the hearing start date will now be Tuesday 19 May, with provision to run over into 20 May if required. The Panel's site visit will be on the afternoon of 18 May.
3. The delay of the hearing start by three working days means that all relevant deadlines will slide correspondingly as per the accompanying revised Notice of Hearing
