

Water connection/disconnection

Activity	Charge
<b>Water connection</b> (application fee only)	\$336.00
<b>Additional connections</b> - applied for at the same time	\$219.00
<b>Five to 10 connections</b> - applied for at the same time (for more than 10 additional fees applied)	\$1,208.00
<b>Installation of a water meter on existing manifold (ordinary water supply only)</b> - in addition to the application fee	\$345.00
<b>Installation of water meters on existing manifolds for additional water connections (ordinary water supply only)</b> - applied for at the same time	\$298.30 per additional meter
<b>Note:</b> The application fee must accompany the application. A refund of the application fee will be made if NPDC cannot provide a connection to its water supply.	
<b>Disconnection administration charge</b>	\$128.80
<b>Note:</b> Permanent disconnection: you do not need the water service in your property. You need to submit an application for disconnection. No fee is required. The dwelling must be vacated before the nominated date for disconnection. If the dwelling is not vacated on the nominated disconnection date, further visits will be required, each subsequent visit will be charged as a secondary inspection.  Temporary disconnection: you will need the water service in the property after the removal or demolition work. You do not need to apply for a temporary water disconnection. You will need to call a plumber to disconnect the water on your side of the toby. This must be done before the building work starts in order to prevent clogging or damage to pipes.	
<b>Removal of manifold and blank off connection</b>	Price on application
<b>Change of restrictor size, only one change per year permitted</b> (rural restricted flow only)	\$229.00 per change
<b>Note:</b> A three month period of grace is given when the restrictor is first installed. The size of restrictor can be changed up to three times within that period without charge.  A minimum charge of one unit will apply when the owner is not using the connection but does not wish to disconnect.	
<b>Water meter reading by appointment or account adjustments</b>	\$129.00
<b>Installation of water connection</b>	Price agreed with contractor
<b>Note:</b> Financial arrangements are between the customer and the NPDC-approved contractor.	
<b>Annual backflow prevention device testing (per device, per visit)</b> – business hours	\$177.00 per test
<b>Annual backflow prevention device testing (per device, per visit)</b> – after hours	\$322.00 per test
<b>Site inspections and surveying</b> – Engineer	\$260.00 per hour
<b>Site inspections and surveying or repeated meter queries</b> – Technician	\$129.00 per hour
<b>Water meter relocation of an existing service lead</b> – 15mm to 25mm meter	Price on application
Filling points*	Charge
<b>Water filling points supply charge per annum</b>	\$250.00
<b>Water filling points consumption charge</b> (as recorded by meter)	\$3.00 per m <sup>3</sup>
* Only available to approved contractors. Contact NPDC for a separate application form.	

GST is included unless otherwise stated

**Please turn over for sewer and stormwater  
connection/disconnection fees**

## Sewer connection/disconnection

Activity	Charge
<b>Sewer connection</b> (application fee only)	\$336.00
<b>Additional lots</b> - applied for at the same time	\$219.00
<b>Five to 10 lots</b> - applied for at the same time (for more than 10 additional fees applied)	\$1,208.80
<b>Note:</b> The application fee must accompany the application. A refund of the application fee will be made if NPDC cannot provide a connection.	
<b>Disconnection</b> (charge per visit)	\$129.00
<b>Note:</b> Permanent disconnection: you do not need the sewer service in your property. You need to submit an application for disconnection. No fee is required. The dwelling must be vacated before the nominated date for disconnection. If the dwelling is not vacated on the nominated disconnection date, further visits will be required, each subsequent visit will be charged as a secondary inspection.  Temporary disconnection: you will need the sewer service in the property after the removal or demolition work. You do not need to apply for a temporary sewer disconnection. You will need to call a plumber to disconnect and cap the sewer on the customer's side of the boundary. This must be done before the building work starts in order to prevent clogging or damage to pipes.	
<b>Installation of sewer connection</b>	Price agreed with contractor
<b>Note:</b> Financial arrangements are between the customer and the NPDC-approved contractor	
<b>Site inspections and surveying</b> – Engineer	\$260.00 per hour
<b>Site inspections and surveying or repeated meter queries</b> – Technician	\$129.00 per hour

## Stormwater connection/disconnection including kerb connection

Activity	Charge
<b>Stormwater connection</b> (application fee only)	\$336.00
<b>Additional lots</b> - applied for at the same time	\$219.00
<b>Five to 10 lots</b> - applied for at the same time (for more than 10 additional fees applied)	\$1,208.00
<b>Note:</b> The application fee must accompany the application. A refund of the application fee will be made if NPDC cannot provide a connection to its stormwater service.	
<b>Disconnection</b> (charge per visit, with no charge for initial visit)	\$129.00
<b>Note:</b> You need to submit an application for disconnection. No fee is required. The dwelling must be vacated before the nominated date for disconnection. If the dwelling is not vacated on the nominated disconnection date, further visits will be required, each subsequent visit will be charged as a secondary inspection.	
<b>Installation of stormwater connection to manhole, sump or kerb</b>	Price agreed with contractor
<b>Note:</b> Financial arrangements are between the customer and the NPDC-approved contractor.	
<b>Site inspections and surveying</b> – Engineer	\$260.00 per hour
<b>Site inspections and surveying or repeated meter queries</b> – Technician	\$129.00 per hour
